Administrative change of national authorisation for the biocidal product, ROBAN VAXKUBBAR, is approved

The Environment Agency of Iceland (Umhverfisstofnun) received your application for administrative change of national authorisation for the biocidal product, ROBAN VAXKUBBAR, on 10.3.2022. The case was accepted by the Agency on 3.7.2023.

The biocidal product, ROBAN VAXKUBBAR, is authorised in Iceland with the authorisation number IS-2014-0001. This application for administrative change of national authorisation is granted in exercise of the powers conferred by Articles 50(2) of Regulation (EU) No 528/2012 and Article 6(4) of Regulation (EU) No 354/2013 (on changes) in accordance with Article 1(1)(6) of Icelandic Regulation No 878/2014 on biocidal products, which implemented Regulation (EU) No 354/2013 into Icelandic legislation.

The Agency hereby confirms and approves the notification for addition of a formulator of the biocidal product and change to the classification and labelling.

The notification concerns,

- Addition of a new manufacturing site:
PelGar International Limited, Overley Hill, B5061, Wellington, Telford, TF6 5HD, United Kingdom.
- Change of classification arising from the 15th ATP to CLP classification of OIT:
Addition of GHS07, H317 and P280.
Addition of 2-octyl-2H-isothiazol-3-one to EUH 208.

as referred to in Section 2 of Title 1 of the Annex to Regulation (EU) No 354/2013.

Accordingly, the Environment Agency of Iceland has made the relevant changes to the Summary of Product Characteristics (SPC) and uploaded it under asset number IS-0006759-0000. The relevant criteria for the biocidal product authorisation apply as described therein.

Sincerely

Hafdís Inga Ingvarsdóttir
