

Summary of product characteristics for a biocidal product

Product name: FLY PLAQUETTE

Product type(s): PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Authorisation number: FR-2018-0112

R4BP 3 asset reference number: FR-0013135-0000

Table Of Contents

Administrative information

1.1. Trade names of the product

FLY PLAQUETTE
RAID® Plaquettes Anti-Mouches
Pyrel® Plaquettes Anti-Mouches
RAID DÉCOR PLAQUETTES ANTI-MOUCHES

1.2. Authorisation holder

Name and address of the authorisation holder	Name	SC Johnson Europe Sàrl
	Address	Z.A. la Piece 8 1180 Rolle Switzerland
Authorisation number		FR-2018-0112
R4BP 3 asset reference number		FR-0013135-0000
Date of the authorisation		06/12/2018
Expiry date of the authorisation		05/12/2028

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	SC Johnson Europe Sàrl
Address of the manufacturer	Z.A.la Piece 8, 1180 1180 Rolle Switzerland
Location of manufacturing sites	IGO s.r.l. Via Palazzo 46, 24061 Albano Sant' Alessandro Italy

1.4. Manufacturer(s) of the active substance(s)

Active substance	1404 - Transfluthrin
Name of the manufacturer	Bayer Environmental Science
Address of the manufacturer	16 rue Jean-Marie Leclair 69266 Lyon France
Location of manufacturing sites	BILAG Industries Private Limited Adresse:Plot # 306/3, II Phase, GIDC,Vapi 396 195 Gujarat India

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Transfluthrin		Active Substance	118712-89-3	405-060-5	4,41

2.2. Type of formulation

VP - Vapour releasing product

3. Hazard and precautionary statements

Hazard statements	Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.
Precautionary statements	Avoid release to the environment. Collect spillage. Dispose of to in accordance with local/regional/national/international regulation..

4. Authorised use(s)

4.1 Use description

Use 1 - indoor passive diffusion – use by non professional users

Product type	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: Musca domestica Common name: House fly Development stage: Adults
Field(s) of use	Indoor Indoor
Application method(s)	Passive plaquette diffusion - Passive plaquette diffusion Use with a fan
Application rate(s) and frequencies	One plaquette per 20 m3 corresponding to 1 plaquette per 8 m ² - 0 - One plaquette per 20 m3 corresponding to 1 plaquette per 8 m ² Delay of action : 24 hours The product remains efficacious up to 4 months.
Category(ies) of users	General public (non-professional)
Pack sizes and packaging material	Plaquette of 4.9 g put in a nylon plastic cage of 8.3 cm x 8.3 cm x 1.2 cm packed in a sealed pouch (multilayer sachet: Polyethylene Terephthalate (PET), Ethylene Vinyl Alcohol (EVOH), and Low Density Polyethylene (LDPE)). Sachet are packed in a carton box which contains 2 sachets

4.1.1 Use-specific instructions for use

4.1.1 Use-specific instructions for use

-

4.1.2 Use-specific risk mitigation measures

-

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

-

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

5. General directions for use

5.1. Instructions for use

- Remove one diffuser from its air-tight package.
- Each diffuser protects a room of approximately 8 m² (20 m³).
- For maximum effectiveness, place the diffuser above floor level, and not against a wall.
- Place it one meter away from any other surface.
- Avoid sources of heat (radiator, direct sunlight), and open windows.
- Use in a room with a fan
- Alternate with non-chemical based control approaches (e.g. glue traps)
- Always read the label or leaflet before use and respect follow all the instructions provided.
- The authorization holder should report any observed resistance incidents to the Competent Authorities (CA) or other appointed bodies involved in resistance management.

5.2. Risk mitigation measures

Keep away from children.

Do not open plastic box. Do not touch the contents of the plastic box

Avoid sources of heat (radiator, direct sunlight) and open windows.

Do not use near food, feed or drinks, or near surfaces or utensils likely to be in direct contact with food, feed, drinks and animals

Cover all water storage tanks before application

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

- Skin contact: Wash contaminated skin with soap and water. Contact poison treatment specialist if symptoms occur.
- Eye contact: Immediately flush with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses if easy to do. Continue to rinse with warm water for at least 10 minutes. Get medical attention if irritation or vision impairment occurs.
- Mouth contact: Wash out mouth with water. Contact poison treatment specialist.
- Keep the container or label available

5.4. Instructions for safe disposal of the product and its packaging

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste in accordance with local regulations.
- Do not use in areas accessible to pets or other non-target animals (in order to minimise the risk of poisoning)
- At the end of the treatment campaign, collect the diffuser for disposal

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

- 2 years at ambient temperature.

6. Other information

- The study of long term storage with technical characteristics (content of AS with a validated method, monitoring of support and of the packaging (sachet)) should be provided in post-authorisation within 1 year.
- Implement a monitoring of scientific literature related to the resistance of the house fly to the active substance transluthrin and provide an assessment of this monitoring every 2 years
