Extension of expiry date for national authorisation of the biocidal product Visir Oljegrunning Pigmentert

The biocidal product Visir Oljegrunning Pigmentert is authorized in Iceland under the asset number IS-0004604-0000. The expiry date of the authorization is on the 28 November 2021. The authorization holder Jotun A/S submitted an application for renewal of the national authorization on 27 September 2018.

The biocidal product contains the active substance tebuconazole which the expiry date of approval for use in biocidal products of product-type 8 has been postponed to 30 September 2022 with Commission Implementing Decision (EU) 2019/1951.

In accordance with the expiry date of the active substance, the competent authority of the reference asset in Norway, NO-2011-0003, has extended the expiry date of the authorization granted for Visir Oljegrunning Pigmentert.

With reference to the extension of the active substance and the reference asset in Norway, the national authorization in Iceland is extended until 30 September 2022.

Apart from the extension of the expiry date outlined above, the authorization conditions as stated in the authorization letter dated 27 April 2018 are valid.

This administrative decision may be appealed before the Minister for the Environment and Natural Resources, in accordance with Article 68 of the Chemicals Act No 61/2013 and Article 26 of the Icelandic Administrative Act No 37/1993. Appeals should be directed, within three months from the receipt of this decision, to the Ministry for the Environment and Natural Resources, Skuggasundi 1, 101 Reykjavík, Iceland.

Sincerely

Hafdís Inga Ingvarsdóttir
