

# IUCLID tour

Demo: specific areas of preparing  
poison centre notification

Safer Chemicals Conference 2021

Heidi Rasikari

#SAFERCHEMICALS

# Today's demonstration

General tour of IUCLID (dashboard, managing and cloning entities)

Special features (copying data, changing legal entities)

Cloning & editing a dataset for a 'Significant change of composition'

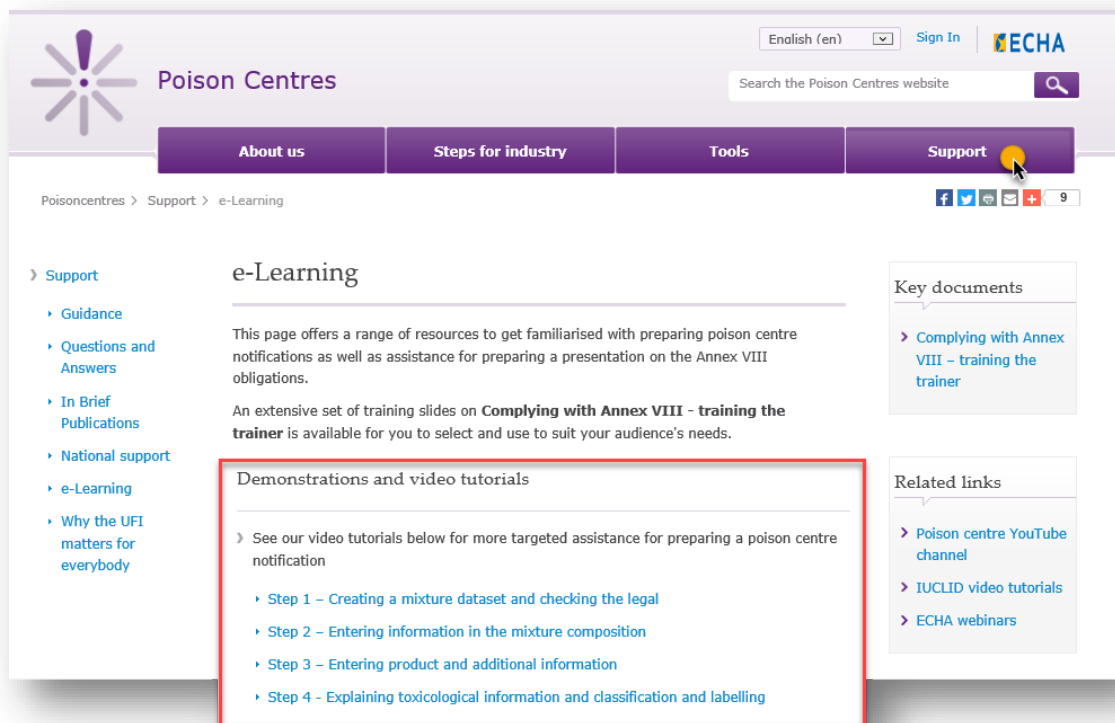

Compiling mixture composition for 100 % Mixture in Mixture (MiM)

Managing product information documents

# Step by step – start to finish

- Available on the Poison Centre [website](#)

The screenshot shows the ECHA Poison Centres website interface. At the top, there is a navigation bar with 'English (en)', 'Sign In', and the ECHA logo. Below this is a search bar and a main navigation menu with 'About us', 'Steps for industry', 'Tools', and 'Support'. The 'Support' menu item is highlighted with a mouse cursor. The breadcrumb trail reads 'Poisoncentres > Support > e-Learning'. On the left, a sidebar lists various support topics, with 'e-Learning' selected. The main content area is titled 'e-Learning' and contains a paragraph about resources for preparing poison centre notifications, followed by a link to 'Complying with Annex VIII - training the trainer'. Below this, a section titled 'Demonstrations and video tutorials' is highlighted with a red box and contains a list of four steps: 'Step 1 - Creating a mixture dataset and checking the legal', 'Step 2 - Entering information in the mixture composition', 'Step 3 - Entering product and additional information', and 'Step 4 - Explaining toxicological information and classification and labelling'. On the right, there are sections for 'Key documents' (with a link to 'Complying with Annex VIII - training the trainer') and 'Related links' (with links to 'Poison centre YouTube channel', 'IUCLID video tutorials', and 'ECHA webinars').

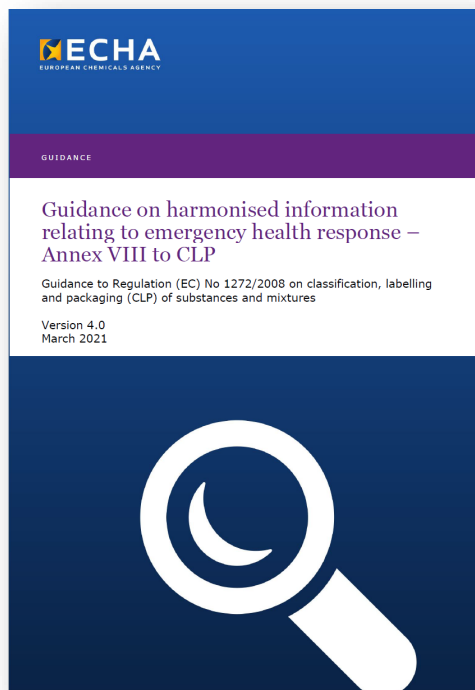

## Working in IUCLID

- [IUCLID Cloud](#) (work online)
  - Active Cloud subscription needed
- [IUCLID 6](#) downloaded (work offline)
  - Latest version from IUCLID website
