

## **VOLUNTARY RISK ASSESSMENT REPORT**

This voluntary risk assessment report of lead and lead compounds has been submitted to the European Chemicals Agency by the Lead Development Association International. This report is based on the industry initiative to perform a voluntary risk assessment on a substance according to the mechanisms of the implementation of the Existing Substance Regulation (EEC) No 793/93 (ESR). The procedure was agreed by the 11<sup>th</sup> Joint Meeting of the Competent Authorities for the Implementation of Directive 67/548/EEC and ESR Regulation.

The Netherlands has been acting as a reviewing Member State for the substance and the risk assessment report has been reviewed by the Technical Committee on New and Existing Substances (TC NES) according to standard operational procedures of the Committee.
