

LIST OF PENDING ARTICLE 95(1) APPLICATIONS

Prepared as of 15 December 2015

EXPLANATORY NOTE

In order to increase transparency for industry, in particular SMEs, ECHA has decided to publish a list of all the applications made in accordance with Article 95(1), second sub-paragraph, of the Biocidal Product Regulation (BPR) for which ECHA has not yet taken a decision. The list is structured per active substance and includes all product types (PTs) for which a submission has been made. The list includes the names of the applicants and their country, their role as substance supplier and/or product supplier, the date of submission of the application as well as the date of acceptance of the application by ECHA following the payment of the fee. The non-EU companies are listed together with their appointed EU-representatives.

Each entry appears on the list at the time of acceptance of the application by ECHA and remains on the list until the positive or negative decision is taken by ECHA.

WARNING: The list of pending Article 95(1) applications creates no legal rights or obligations for the entities listed. The list of pending Article 95(1) applications should not be confused with the list of relevant substances and suppliers ("Article 95 list") and the presence of a company (per substance/PT/role) on the list of pending applications does not guarantee that the application will be successful and that the company will ultimately be included in the Article 95 list.

Joint applications are not possible under Article 95. When companies work together to make a complete substance dossier, it is suggested that one company submits it and the others apply with a LoA to that dossier (when it has been verified as compliant by ECHA). Where an applicant is marked with an asterisk (*) it means that it has indicated that it will apply with a letter of access to the complete substance dossier (when it has been verified as compliant by ECHA). If the applications are successful, and where the companies agree, ECHA will add the names of the applicants in such linked applications simultaneously to the Article 95 list.
