

## Biocidal Products Committee (BPC)

Opinion on the evaluation of post authorisation conditions for the Union  
authorisation of Pal IPA Product Family

ECHA/BPC/320/2022

Adopted

2 March 2022

## Opinion of the Biocidal Products Committee

on the post authorisation conditions of the Union authorisation of

Pal IPA Product Family

In accordance with Article 44(3) of Regulation (EU) No 528/2012 of the European Parliament and of the Council 22 May 2012 concerning the making available on the market and use of biocidal products, the Biocidal Products Committee (BPC) has adopted this opinion on the Union authorisation of:

Name of the biocidal product family:	Pal IPA Product Family
Authorisation holder and number:	Pal International Limited (EU-0020463-0000)

This document presents the opinion adopted by the BPC, having regard to the conclusions of the evaluating Competent Authority (eCA).

### Process for the adoption of BPC opinions

The biocidal product family Pal IPA Product Family was authorised on 24 December 2019 via Implementing Regulation (EU) 2019/2030. In the BPC opinion ECHA/BPC/223/2019 (28 February 2019) post-authorisation conditions were specified for this product. Following the submission of the data required on 30 July 2021, recorded in R4BP3 under case number BC-DY025578-07, the evaluating Competent Authority Germany submitted the conclusions of its evaluation to ECHA on 20 October 2021. In order to review this evaluation the Agency organised consultations via the BPC (BPC-42) and its Working Groups (WG ACP; WG-IV-2021).

## Adoption of the BPC opinion

Rapporteur: Germany

The BPC opinion on the post authorisation conditions for Pal IPA Product Family was reached on 2 March 2022.

The BPC opinion was adopted by consensus.

The opinion is published on the ECHA website.

## Detailed BPC opinion and background

### 1. BPC opinion

#### 1.1 BPC conclusions of the evaluation

##### 1.1.1 Data provided as post-authorisation conditions

Long-term storage stability data of one study was submitted. For a product (wipes) of meta-SPC 02 the shelf-life at 25 °C for 24 months was investigated. Active substance content, appearance of the packaging and test item, weight change and pH were determined. In the study different sizes of wipes and commercial packaging were investigated.

##### 1.1.2 Evaluation of the data provided

All tests performed gave results within the acceptable limits outlines in the Guidance on the Biocidal Product Regulation (version 2.0, May 2018). The active substance content and pH of the isolated liquid formulation were stable and there was no change in the appearance of the wipes, the isolated liquid formulation or the packaging.

##### 1.1.3 Conclusion of the evaluation

The products of meta-SPC 02 (wipes) are stable for 24 months at room temperature. The data provided fulfil the post-authorisation requirements.

#### 1.2 BPC opinion on the post authorisation conditions for the Pal IPA Product Family

The authorisation of the Pal IPA Product Family does not need to be amended as the authorised shelf life of 2 years is supported for the biocidal product family (BPF).
