

Curriculum Vitae

(Jérôme Faé)

Main expertise in summary

Please explain your experience and expertise in the field of chemical safety, the regulation of chemicals or in the fields of general, financial and legal matters (see Article 79(2) of the REACH Regulation)

He has been involved in the coordination of implementation of EU chemicals legislation at national level and different national projects related to chemicals management. At international level, he is following the developments in several dossiers such as SAICM, Minamata Convention on Mercury (focal point) and other multilateral environmental agreements.

Professional experience

Please list and explain your current and past professional experiences

He joined the Ministry of the Environment, Climate and Sustainable Development in 2017. He currently holds the position of "Attaché" and his field of work is mainly linked to the human environment. In his current position, he is coordinating the implementation of the files related to circular economy, chemicals, noise, soils and partially climate and air quality.
