

## **ECHA will have six sessions at SETAC Europe in Rome 13-17 May 2018**

We are now looking for abstracts, presentations and posters to be shown on different topics that we will be presenting during the conference. If you have for example case studies about the following topics that you would like to get visibility for through us, let us know and submit your abstract to SETAC before **29 November 2017**.

ECHA's sessions are:

- Track 3. Environmental chemistry and exposure assessment: analysis, monitoring, fate and modelling
  - **3.12 Improvements in environmental exposure assessment: Development and application of tools across industry sectors, regulatory agencies, and international boundaries**  
Read the session abstract [here](#).
- Track 4. Ecological risk assessment and human health risk assessment of chemicals, mixtures and stressors and risk mitigation strategies
  - **Integrating higher-tier solutions and managing complexity in the regulatory risk assessment of Biocides, Veterinary Medicines and other chemicals**  
Read the session abstract [here](#).
- Track 6. Environmental policy, risk management and science communication
  - **6.1 Advances in testing and regulatory approaches for endocrine disruptors**  
Read the session description [here](#).
  - **6.5 Informed substitution of hazardous chemicals for circular economy: science and practice**  
Read the session abstract [here](#). Contact: [substitution\[a\]echa.europa.eu](mailto:substitution[a]echa.europa.eu)
  - **6.8 Recent developments in regulatory science and environmental risk assessment of nanomaterials**  
Read the session description [here](#).
  - **6.15 What is toxic? Examining the interface between statistical significance and biological relevance**  
Read the session abstract [here](#).

Contributions from scientists, authorities, industry and other stakeholders are welcome.

We are looking forward to seeing you in Rome in May 2018.
