The Exposure Scenario is a cornerstone of REACH!

**Key Communication tool
in the Supply-chain !**

- **Many pages of guidance available**
- **Formats and tools developed**
- **Many parties are active at company and sector level**
- **But:**
 - **Are we all on the right track?**
 - **Are we efficient?**
 - **Can we learn from each other?**

THE EXCHANGE NETWORK IS THERE TO:

- **Better understand your challenges in building and communicating ESs**
- **Promote cooperation**
- **Identify partners to develop solutions and best practices**
- **Promote clear and consistent information in ESs**
- **Provide and obtain feedback on their quality**

HOW:

- **Meetings**
- **Multipliers**
- **Marketplace (Methods and Tools)**
- **Measures!**

- **First Network meeting**
- **Part of a series of events to support the ACT NOW! REACH 2013 campaign**
- **Participants: manufacturers, downstream users, industry associations, Competent authorities (DK, FI, FR, DE, SE, CH)**
- **The information and materials presented will be published on ECHA's website in December**
