While the new system is setup... there will significant changes to the website:

Autocomplete option for the search for chemicals

### Search For Chemicals

## On autocomplete result, new approach to present substance information

The search for **benzene** produced the following results:

**Name:** benzene  
**EC number:** 200-753-7  
**CAS number:** 71-43-2

Basic substance information

This substance has been found in

**PIC**

[Chemicals](#)

[Explicit Consents](#)

[Export Notifications](#)

[Import Notifications](#)

**REACH**

[Pre Registered Substances](#)

Processes divided by Regulations. Clicking the link will open the relevant list

Please note that in the above result the same substance can be available with the following alternative names:

**Name**

Benzene Heart Cut

Blend TN-100

CONTROLTAC PLUS R221

Detergents Reagent Set 2446801

ORGANIC SOLVENT

**EC Number**

200-753-7

200-753-7

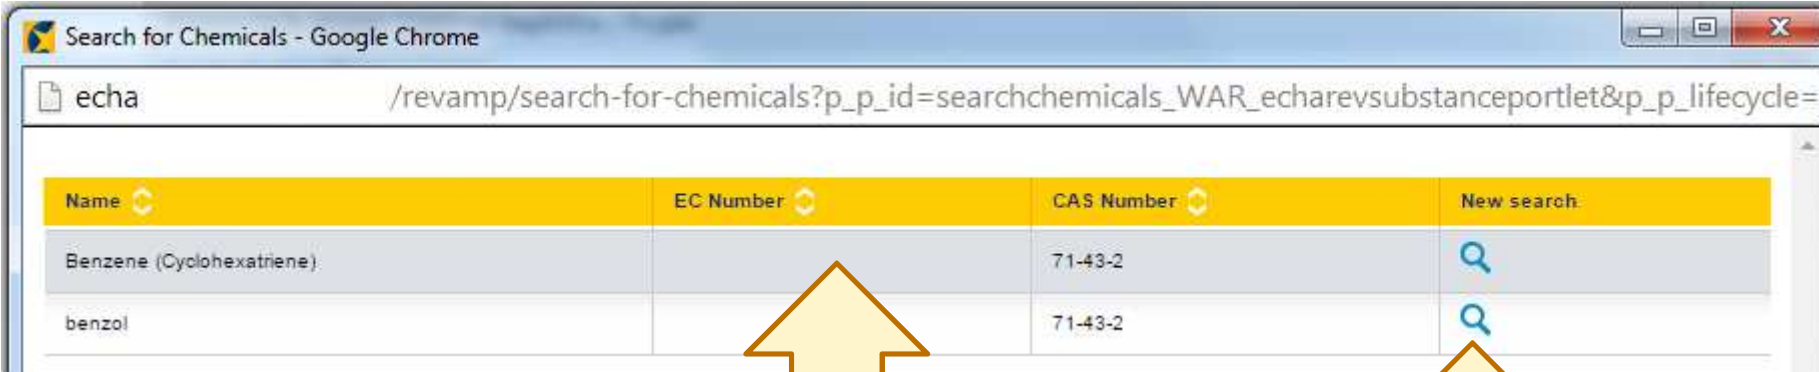

200-753-7

200-753-7

200-753-7

Substance alternative names

From the previous result view, possibility to further search for substance(s) with same CAS but different EC, if any

Name	EC Number	CAS Number	New search
Benzene (Cyclohexatriene)		71-43-2	
benzol		71-43-2	

E.g. in this case  
the EC number  
is not available

Clicking the icon a  
new search is  
performed for this  
specific substance  
(see slide no.2)

If none of the autocomplete option is chosen...

Name	EC Number	CAS Number	View
<b>Benzene</b>	200-753-7	71-43-2	
[2H]benzene	214-321-0	1120-89-4	
allylbenzene		300-57-2	
azidobenzene		622-37-7	
azobenzene			
azoxybenzene			
benzenethiol			
bromobenzene	203-623-8		
butylbenzene	203-209-7		
decylbenzene	203-230-1		
ethylbenzene	202-849-4		
hexylbenzene	214-070-7		
iodobenzene	209-719-6		
nitrobenzene	202-716-0	98-95-3	
...			

Showing 1 - 20 of 7,926 results.      Items per Page 20 ▼    Page 1 ▼ of 397    First ◀ Previous Next ▶ Last ▶▶

In this example the search is performed with the full name "benzene"

Clicking the icon a new search is performed for this specific substance (see slide no.2)

Moreover, for the “Information on Chemicals” section...

- Re-organisation of all sub items, to allow:
  - straight access from the main landing page to the lists
  - only essential information presented in the list page
  - additional details still available in sub pages
  - ... to summarise, all the opposite as the current approach for the CORAP list 😊

Ok, all nice but when?!

...before Santa Claus' gifts!

Thank you
