

ECHA's Dissemination website

Conclusions and Next steps

03 December 2013

Main outcome

Likes:

- Tiered approach
- Approach for C&L and Uses
- Graphic representation of C&L notifications
- Overview of regulatory processes

Main outcome

Concerns / issues to improve (1)

- Inform user about scope and limitations of data
- Find ways to minimised misleading communication of data
- Information needs to be contextualized (helps/ tooltips / glossary)
- Links to other databases/regulations
- Explore the best way to highlight key concerns

Main outcome

Concerns / issues to improve (2)

- Implement different languages
- Phrase libraries need to be improved
- SVHC uses in consumers articles
- Authorised uses
- Uses advised against
- Full history of updates
- Link to name of registrants

Main outcome

Debate points:

- Info card for non registered substances?
- Remove info on dossier evaluation?

Next steps

- ECHA to send presentations and list of suggestions to workshop participants and ask for feedback
- ECHA to consider sharing more examples of Infocard and Brief Profiles for further consultation
- ECHA to communicate about the process to registrants, applicants and notifiers
