

REACH 2018 webinars

Preparing to form a SIEF

18 November 2015

Catherine Cornu
European Chemicals Agency

REACH registration 2018

Phase 2 activities

1. Find out if your substances are already registered
2. Verify your pre-registrations
3. Find and contact your co-registrants
4. Establish substance sameness
5. Prepare for working together in the SIEF

Substance information exchange forum

- Cooperation of companies for joint registration of the same substance
- Share data on the substance and costs
- Pre-registration > pre-SIEF > SIEF

Find out if your substance is already registered

 No results were found

Find out if your substance is already registered

- On the ECHA website:
echa.europa.eu/information-on-chemicals/registered-substances

NO:
create a new SIEF

YES:
join an existing SIEF

Verify your pre-registration

- Gives you the right to be on the market until 2018
 - need a pre-registration for each substance you need to register
- Late pre-registration
 - for newcomers to the market
- In REACH-IT
 - need your user name and password
- Starting point for co-registrants to find each other
 - make sure your contact details are up to date

Find and contact your co-registrants

- Find: in pre-SIEF in REACH-IT
- Contact: by email
- as a SIEF formation facilitator (SFF), you can indicate in REACH-IT that/where you want to find and discuss with co-registrants
- You may be the only registrant

Establish substance sameness

Follows from your substance identification

- Co-registrants determine the name of their substance according to the ECHA guidance, considering the composition and type of the substance
- If the name of the substance is the same, the substance is the same

Prepare for working together

- If their substance is the same, the co-registrants are in the same SIEF
- Become familiar with the activities in a SIEF
- Become familiar with the roles in a SIEF: lead and member

Take away messages

- Check now on the ECHA website which of your substances have already been registered
- Identify those substances for which you are alone and you have no data. Get help if these are business critical substances
- Get active in pre-SIEF
- Support material is available

Thank you
