02/11/2015 - Press release
ECHA asks registrants to show how they considered alternative methods before consulting on testing proposals

To further ensure that testing on animals is only done as a last resort, ECHA has started requesting additional information from registrants who submit new testing proposals for vertebrate animal tests. This follows the European Ombudsman's recent decision about ECHA's role in evaluating testing proposals.

News

28/10/2015 - News alert
Draft CoRAP to evaluate 138 substances in 2016-2018 published

ECHA has prepared a proposal to update the Community rolling action plan (CoRAP) for 2016-2018. The Member States are planning to evaluate 138 substances, out of which 53 are newly selected. The final plan will be adopted in March 2016.

1.
Know your portfolio

2.
Find your co-registrants

3.
Get organised with your co-registrants

4.
Assess hazard and risk

5.
Prepare your registration as a IUCLID dossier

6.
Submit your registration dossier

7.
Keep your registration up-to-date

Find your co-registrants

Obligation to work together with your co-registrants

All co-registrants for the same substance are part of a cooperation group called a substance information exchange forum (SIEF). They all have to share scientific data on the substance and register jointly.

Find your co-registrants

Find who intends to register or has already registered your substance. Many substances have already been registered. A list of already registered substances is published on ECHA's website.

1. If your substance is already registered:

Find out who the lead registrant is. You probably received emails from that company already. Otherwise, check in the pre-SIEF pages of REACH-IT. The lead registrant will put you in contact with the SIEF.

2. If your substance has not been registered yet:

Find the contact details of your potential co-registrants in the pre-SIEF pages of REACH-IT. Review your own contact details.

Substance sameness

Once you are in contact with the SIEF, confirm that your substance is the same as in the existing registration. If your substance has not been registered yet, check with all co-registrants that you intend to register the same substance before forming a SIEF.

Agenda

11.00 - 11.05	Introduction
11.05 - 11.15	Prepare to form a SIEF
11.15 - 11.25	Prepare to join a SIEF
11.25 - 11.30	REACH-IT demo on finding your co-registrants
11.30 - 11.40	Video – companies testimonials
11.40 - 11.55	Q&A session
11.55 – 12.00	Key messages and closing

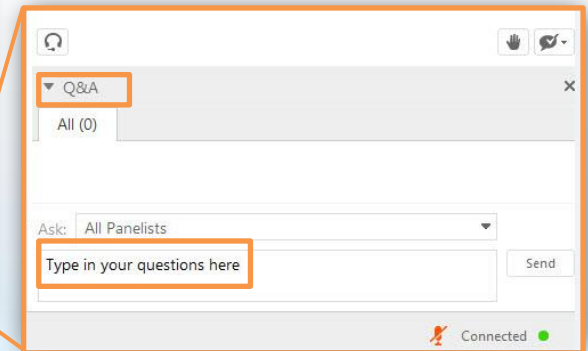

Use the Q&A panel to:

The screenshot shows the Cisco WebEx Event Center interface. The main content area displays a slide for "REACH 2018 webinars" with the ECHA logo and text: "Find your co-registrants and prepare to work together", "18 November 2015", and "11.00 – 12.00 Helsinki time". A video feed of a speaker is visible in the top right. The bottom right corner of the interface features a "Q&A" panel, which is highlighted with an orange box. This panel is expanded to show a list of questions and a text input field for asking questions.

- Submit questions about the presentations in this webinar
- Send us messages if you have technical difficulties

This close-up view of the Q&A panel shows a dropdown menu set to "Q&A" with "All (0)" questions listed below. The "Ask:" dropdown is set to "All Panelists". A text input field contains the placeholder text "Type in your questions here", and a "Send" button is located to its right. The interface also shows a "Connected" status indicator at the bottom right.

Q&A

Submit your question at any time in the Q&A panel available on your webinar window.

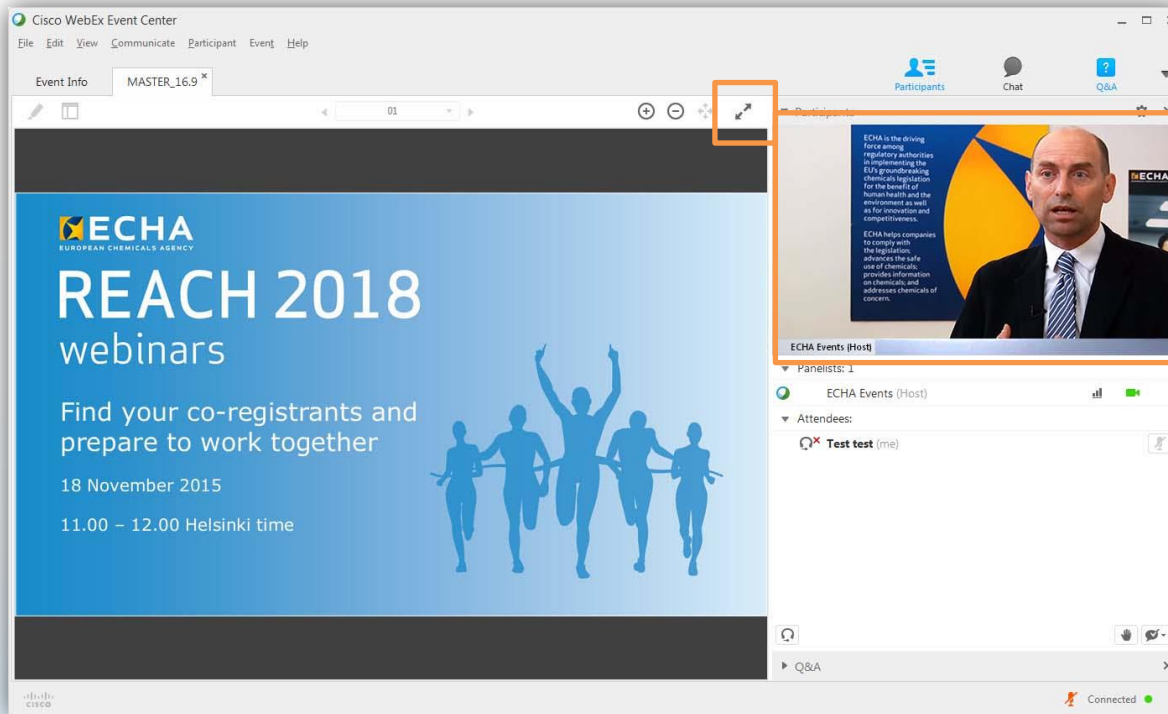

- Our panellists will answer as many of them possible in writing through the Q&A panel
- Some of the most relevant questions will be answered with all of you during the Q&A session

If we do not manage to cover your question, please submit it to your national helpdesk or the ECHA Helpdesk

echa.europa.eu/contact

You can use the full screen option

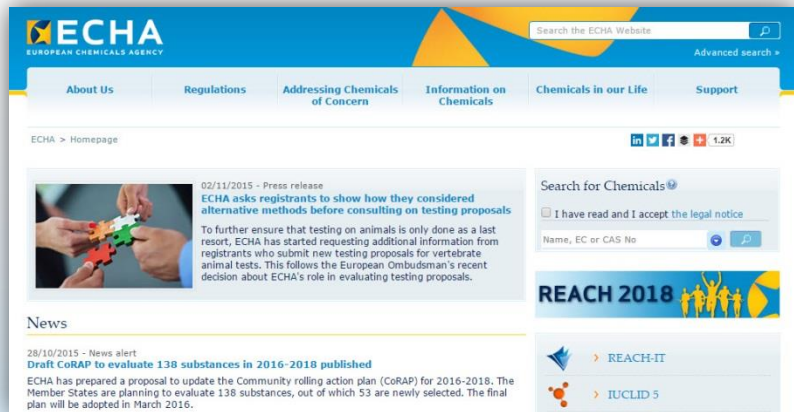

- Video (just double click on the video window)
- Presentation (press the full screen button)

Webinar recording will be published
in ECHA's YouTube channel:

All the material of previous webinars is
available on our website:

The screenshot shows the ECHA website homepage. At the top left is the ECHA logo. To its right is a search bar labeled "Search the ECHA Website" and an "Advanced search" link. Below the logo is a navigation menu with tabs for "About Us", "Regulations", "Addressing Chemicals of Concern", "Information on Chemicals", "Chemicals in our Life", and "Support". Below the navigation menu is a social media bar with icons for LinkedIn, Facebook, Twitter, and YouTube, and a "1.2K" indicator. The main content area features a news article dated "02/11/2015 - Press release" titled "ECHA asks registrants to show how they considered alternative methods before consulting on testing proposals". Below the article is a "News" section with a "News alert" dated "28/10/2015" titled "Draft CoRAP to evaluate 138 substances in 2016-2018 published". On the right side of the page, there is a "Search for Chemicals" section with a search box and a "REACH 2018" banner with a "REACH-IT" link and an "IUCLID 5" link.
