

Public Consultation in Applications for Authorisation

Provision of alternatives

Jan Ahlskog, Fipra International

Preparation is key!

Good to have

Life Cycle Assessment (LCA)

Socioeconomic Analysis

Client Endorsements,

Compliance Certificates

Market Data

Must-haves

■ Clear description of substance/technology

■ Substance Safety Data Sheets

■ Clear description of possible uses

■ Clear understanding of potential risk to health and environment

Additional tips

Start early

**Prepare your organisation
/ core team**

**Gather evidence on
hazards & risks**

Assess potential uses

Include visual aids
(pictures, graphs, diagrams, etc.)
