Subject: ECHA/2009/39: Multiple Framework Contract with reopening of competition and division into lots for external service provision for development, studies, support of information systems and security, awarded through an open procurement procedure

CLARIFICATIONS 12

12.1 In the Annex 5.3.2.1.1 you mention that minimum staff numbers required for the lot 5 is 100. Does this refer to staff in general or staff with general expertise for the profiles required by the specific lot? Is this an exclusive criteria? In the case of a joint offer does this refer to total staff of all offerers together?

For lot 5 a minimum number of 100 staff members are required to meet the general requirements of any of the profiles required for Lot 5.

Only tenderers who have passed the exclusion and selection criteria, e.g. the ability to provide the necessary human resources to deliver the required services for the specific lot, will have their tender assessed against the award criteria.

A consolidated assessment shall be made for joint offers, i.e. the staff of all members of the consortium together will be assessed.
