**Subject: ECHA/2009/39: Multiple Framework Contract with reopening of competition and division into lots for external service provision for development, studies, support of information systems and security, awarded through an open procurement procedure**

## **CLARIFICATIONS 32**

32.1 The project reference form template given has box boundaries to submit the responses. The box provided in the template is very small and the response can only be 4-5 lines if we cannot extend the box. Can we expand the size of the box, as the details of answers are about one page in general? (As you are asking for detailed methodology and detailed response for case studies, it is impossible to fit it with in the box provided).

*The size of the box can be adapted to the length of the answers.*
