

Stock-taking Conference on the Implementation of
REACH Authorisation
13-14 November 2017 at ECHA, Helsinki

RAC commentary on
Application for Authorisation
by: *emp BIOTECH GmbH*

Lina Dunauskiene

RAC observations

- The application was quite short, concise and clear
- The tasks presented as WCS were well described and workers exposures evaluation was based on:
 - measurements and modelling
- The RMMs and OCs described were judged to be
 - appropriate and effective in limiting the risk to workers.
- RAC noted lack of RMMs to prevent releases of EDC to air from tasks not performed under closed systems and captured by LEVs:
 - improvement already planned by the applicant
- RAC considered only few additional monitoring arrangements for the authorisation and for review reports.

- **We learn through stories and we get inspired from others stories...**
 - *Emp Biotech* being a downstream user prepared an application themselves and did a good job...
 - They were not „inventing the wheel“ and did not try to „evade or dodge the requirements“,
 - they just followed „the rules of the game“ and succeeded.

Think
You Can

Start

Finsh

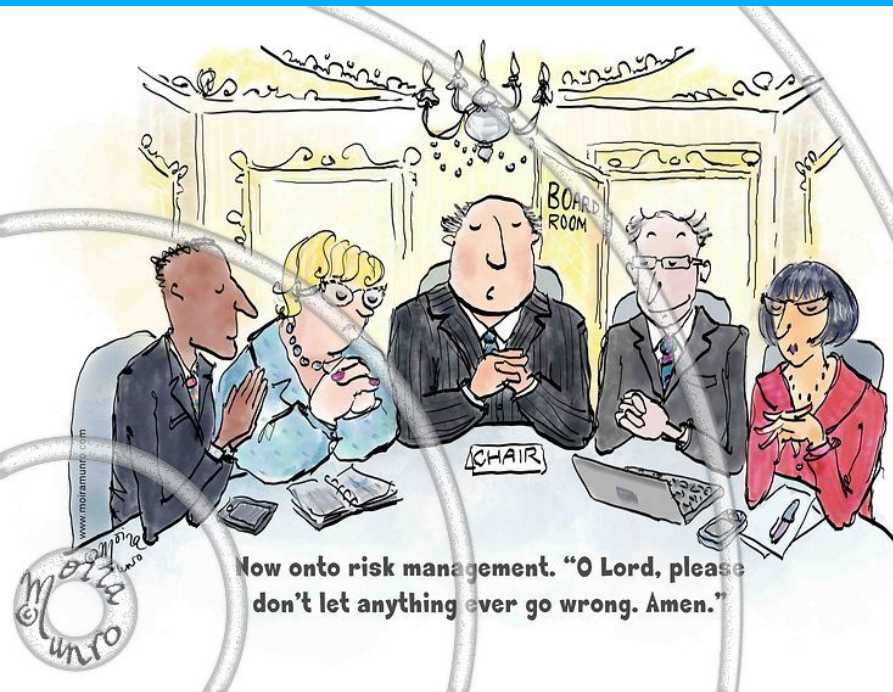

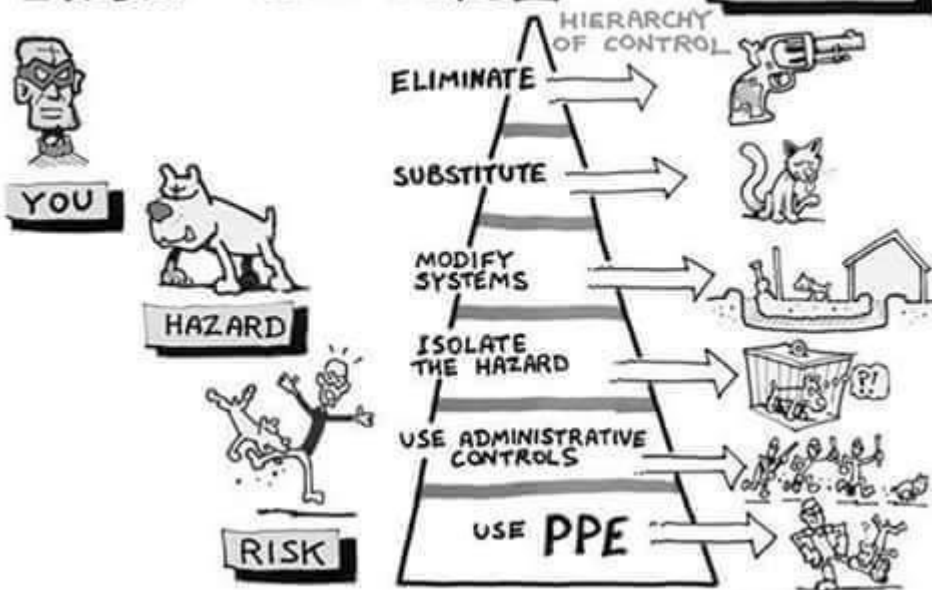

- A message to take home:
 - ***If someone else has done it, then so can you!***

Thank you for your attention!

RISK CONTROL

CONTROL

Now onto risk management. "O Lord, please don't let anything ever go wrong. Amen."

**IF YOU REALLY WANT
TO DO SOMETHING,
YOU'LL FIND A WAY. IF
YOU DON'T, YOU'LL FIND
AN EXCUSE.**

~Jim Rohn
