What is the IUCLID Cloud?

A simpler IUCLID provided as a cloud service to prepare for the REACH 2018 deadline!

- SMEs and their consultants
- Anyone who wants to test

echa.europa.eu
What are the benefits of using IUCLID in the Cloud?

**SMEs:**
- ECHA takes care of the IT infrastructure.
- Simpler interface, focus on the REACH Registration 2018 deadline.
- Reduced risks of data loss (backup system managed by ECHA)
- Work anywhere/anytime via web browser over internet.
- Easy to delegate access to consultants.

**Consultants:**
In addition to all the advantages the SMEs have:
- Give your clients "more value for their money”
- Provide a more transparent and interactive service to your clients
- Opportunity to organize IUCLID trainings
How to access IUCLID Cloud

Already a REACH-IT, R4BP 3 or ePIC user? **Then just login!**

Are you a new user of ECHA’s IT tools? **Then sign up here!**

Welcome to ECHA Cloud Services

**Login**
If you already have an ECHA Account, for example to access REACH-IT, please log in here.

Log in

**Register**
If you do not have an ECHA Account, you can create one and then assign a legal entity to it.

For more information please see the Q&A.

Register
First, you need to subscribe to the service. Once subscribed, you can access the service. Here you can check the information about the service.
Create new substances

View the Q&A or ask for support to the ECHA helpdesk

Check notifications from ECHA

Access your dossiers

Use the classic version of IUCLID

Import IUCLID files here

echa.europa.eu
Edit the type of dossier and administrative data

Open the validation report

Validate the completeness and quality of your data

Create the substance dossier

List of sections and number of documents

Provide information required for your substance

Export your substance
Export the dossier dataset

List of sections and number of documents

Verify the completeness of the dossier
What are the functionalities available?

IUCLID Cloud has now a simpler interface with focus on REACH 2018 registration deadline tasks:

• Import, create and manage your substance datasets and dossiers easily.

• Integrated step-by-step approach (developed exclusively for IUCLID Cloud) to create your dossier.

• Possibility to traverse from the validation assistant report to the records that need attention (and vice versa).

• Integrated with REACH-IT and Chesar

If you want to benefit from the full set of IUCLID functionalities, you can launch the “IUCLID Cloud Client”.
