

# SCIP Format changes

Sept 2021

# IUCLID 6 format (relevant for SCIP)

# Overview of format changes (2021)

- Article 
- Changes in the “Mixture category (EUPCS)” picklist (CLP change applicable to SCIP):
  - New category: PC-TEC-26 'Products for moulding, casting, rigid and flexible foams (including resin mixtures) - excludes adhesives, construction products, paints and coatings.'
  - New category PC-TEC-27 'Products for the polymerisation of resins and foams'. Description: 'Includes curing agents, hardeners, cross-linkers'
  - Modified category: PP-PRD-OTH from 'Other plant protection products' to 'Other plant protection products and related mixtures'

# Overview of format changes (2021)

- Article

- Update of the “Additional material characteristics” picklist  
New additional material characteristic: ‘Recovered ’

# Overview of format changes (2021)

- Article

- Update of the “Article category” picklist

# What does an update of the format mean for users?

After the Oct.  
2021 release

- For **data submitters**
  - No systematic impact as the new IUCLID version will be compatible with the previous version (files are migrated to the latest version after submission)
  - Impact only when Validation Assistant rules are updated
  - Recommendation to keep the format of your submissions up-to-date (the automated migration in IUCLID gives time to adapt)

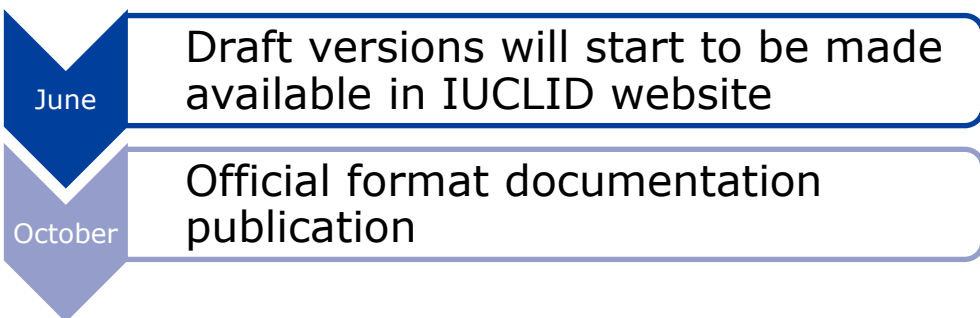

# Format documentation

- The update of the IUCLID format will be documented on the IUCLID website:

<https://iuclid6.echa.europa.eu/format>

- The subset of the SCIP format changes will be published on the SCIP page:

<https://echa.europa.eu/scip-format>

## Update of the IUCLID format

The IUCLID format is maintained and updated by the IUCLID team in collaboration with the users community, once a year. The format update process follows the following timeline:

- By end of February: collection of change requests
- March / April: review of the changes and impact assessment
- By end of June: draft changes are shared with users, on this page
- By end of October: publication of the IUCLID release containing format changes

To share format change requests, please contact either:

- A specific IUCLID user group
- The ECHA Helpdesk or the IUCLID 6 functional mailbox: [iuclid6\(at\)echa.europa.eu](mailto:iuclid6(at)echa.europa.eu)

## Format changes for the October 2021 release

More information will be added soon

## Format versioning

- Version 2.0 of the SCIP format was published in October 2020. (IUCLID 6 v.5)

To help companies implement this format outside of the IUCLID tool, the following support materials are available:

- SCIP format version 2.0 October 2020 [ZIP] (IUCLID 6 v.5)
- SCIP format annex – Picklists: October 2020 [XLSX] | [ZIP]  
Note that the XML list of picklist values contains all IUCLID phrases, not only the ones relevant for SCIP.
- SCIP Notification Format - SCIP data model [PDF] [EN]
- SCIP Notification Format - Preparing a SCIP dossier [PDF] [EN]
- Validation rules for SCIP notifications [PDF] [EN]
- Developers' guide to the IUCLID format: In IUCLID, the exchange of chemical information is facilitated through a zip/archive file with the extension .i6z (IUCLID 6 zip). This file contains information concerning all (inter)related IUCLID 6 entities (documents and attachments), in a well-defined and structured format. This guide explains the structure of the IUCLID file to help developers build accepted notification dossiers from their own systems.

> [SCIP format version history](#)

# Format documentation: phrase groups

- Phrase groups are part of the format documentation:
- Excel list and XSDs
  - Selectable (valid) phrases
  - Obsolete phrases
  - Non-selectable phrases: used in hierarchical phrase groups when a parent phrase cannot be selected
- In a **future** update the **Excel** file will not contain obsolete or non-selectable values: this will be the reference for valid phrases
- The **XSD** files
  - contain valid phrases
  - contain obsolete values (as they are still accepted but should not be used anymore)
  - for the time being they also contain non-selectable values: will be removed in the October 2021 release (these phrases are rejected since February 2021)

Select Article category

Type at least 3 characters

> SECTION I (01 - 05) L

▼ SECTION II (06 - 07) L

▼ 0600000000 - Live trees and other plants; foliage

▼ 0601000000 - Bulbs, tubers, tube in flower; chicory plants and roots

▼ ☒ 0601100000 - Bulbs, tubers, tube

☒ 0601101000 - Hyacinths

☒ 0601102000 - Narcissi

☐ 0601103000 - Tulips

☐ 0601104000 - Gladioli

☐ 0601109000 - Other

> ☐ 0601200000 - Bulbs, tubers, tube flower; chicory plants and roots

Unselectable phrase: used for the building the hierarchical representation only

Selectable phrase

# Format documentation: phrase groups - recommendations

- SCIP format on the ECHA website
  - Refer to the Excel file to check valid phrases
- IUCLID format on the IUCLID website
  - To find more information about parent (non-selectable) phrases and obsolete phrases. (Important to build the article category complete label)
