**IT TOOLING MILESTONES**

- 10/2019 IUCLID 6.4 SCIP format
- 02/2020 SCIP DB prototype
- 05/2020 IUCLID 6 Desktop & server
- 10/2020 SCIP DB v1
- Q1-Q2/2021 SCIP DB v2 UC: make data available
Next steps SCIP IT implementation

• Spring IUCLID Release (End April 2020)
  • From April 29 users can start to prepare SCIP notification ‘offline’ with IUCLID 6 (Server & Desktop). Available to download from IUCLID 6 Website

• Next phase of development
  • Implementation of new approaches to re-use data submitted to ECHA
    • Referencing:
      Target user: Assemblers
      How it works: Create a SCIP notification of a complex object and include as information of the components a reference to data that has already been submitted to ECHA.
    • Simplified SCIP Notification (SSN):
      Target user: distributors that doesn’t do any change on an article.
      How it works: The duty holder will submit a notification that will refer to data submitted by his supplier.
  • Analysis of dissemination portal
Release of SCIP v1
(planned for end of October 2020)
Open to receive data to fulfil legal obligation

IUCLID release (Feature update)
July 2020

SCIP v1 release (open to receive data)
Oct 2020
