## Administrative information

### 1.1. Trade names of the product

COMPO Groene aanslagreiniger klaar voor gebruik
---

### 1.2. Authorisation holder

**Name and address of the authorisation holder**

Name	COMPO Benelux N.V
Address	Filliersdreef 14 9800 Deinze Belgium
Authorisation number	1-1

**R4BP 3 asset reference number**

NL-0015018-0001

**Date of the authorisation**

01/02/2019

**Expiry date of the authorisation**

01/02/2029

### 1.3. Manufacturer(s) of the biocidal products

**Name of the manufacturer**

COMPO GmbH

**Address of the manufacturer**

Gildenstraße 38 48157 Münster Germany

**Location of manufacturing sites**

Schirm GmbH, Standort Baar-Ebenhausen, Dieselstr. 8 85107 Baar-Ebenhausen Germany

### 1.4. Manufacturer(s) of the active substance(s)

<b>Active substance</b>	47 - Nonanoic acid, Pelargonic acid
<b>Name of the manufacturer</b>	Emery Oleochemicals LLC
<b>Address of the manufacturer</b>	4900 Este Avenue 45232 Cincinnati, Ohio United States
<b>Location of manufacturing sites</b>	4900 Este Avenue 45232 Cincinnati, Ohio United States

## 2. Product composition and formulation

### 2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Nonanoic acid, Pelargonic acid	Nonanoic acid	Active Substance	112-05-0	203-931-2	3,5
Isotridecanol, ethoxylated			9043-30-5	500-027-2	0,256

### 2.2. Type of formulation

AL - Any other liquid
-----------------------

## 3. Hazard and precautionary statements

<b>Hazard statements</b>	Contains 1,2-benzisothiazol-3(2H)-one. May produce an allergic reaction.
<b>Precautionary statements</b>	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Do no eat, drink or smoke when using this product.

## 4. Authorised use(s)

## 4.1 Use description

### Use 1 - Algaecide, ready-to-use, outdoor use

<b>Product type</b>	PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)
<b>Where relevant, an exact description of the authorised use</b>	-
<b>Target organism(s) (including development stage)</b>	Scientific name: Green algae Common name: Green algae Development stage:  Scientific name: Lichen Common name: Lichens Development stage:
<b>Field(s) of use</b>	Outdoor  The biocidal product is used only for remedial treatment of hard porous surfaces to remove green surface discolouration on patios, paths, car parks, masonry and steps. Relevant materials to be treated are for example brick, concrete, rocks, wood and natural stones
<b>Application method(s)</b>	Trigger spraying -  The ready-to-use product (nonanoic acid concentration of 31 g/L) is used undiluted. Dry contaminated surfaces are sprayed evenly from a distance of about 30 cm until they are completely dampened.
<b>Application rate(s) and frequencies</b>	One spray bottle is sufficient to treat 7.5 m <sup>2</sup> . In case of very light surface discolouration, one spray bottle is sufficient to treat 15 m <sup>2</sup> . - 0 - Frequency: once per year
<b>Category(ies) of users</b>	General public (non-professional)
<b>Pack sizes and packaging material</b>	750 mL bottle with trigger sprayer, made of HDPE or PET.

#### 4.1.1 Use-specific instructions for use

Please refer to Directions for use.

#### 4.1.2 Use-specific risk mitigation measures

Please refer to Directions for use.

#### **4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

Please refer to Directions for use.

#### **4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging**

Please refer to Directions for use.

#### **4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

Please refer to Directions for use.

### **5. General directions for use**

#### **5.1. Instructions for use**

Always read the label or leaflet before use and respect/follow all the instructions provided.  
The ready-to-use product (nonanoic acid concentration of 31 g/L) is used undiluted.  
Dry contaminated surfaces are sprayed evenly from a distance of about 30 cm until they are completely dampened. Do not apply more fluid than necessary and avoid droplets that runoff from surfaces during application.  
Allow the product to take effect for at least 48 hours. Do not rinse with water afterwards.  
Do not apply in windy conditions.  
Do not spray on non-target plants during application to prevent irreversible damage.  
The soil next to the treated surface should be covered with plastic sheets (at least 50 cm width) during application to avoid emissions to soil.

#### **5.2. Risk mitigation measures**

Keep children and pets away until surface is dried.  
Do not apply when rain is expected within 48 hours and/or in windy conditions.  
Do not apply this product on surfaces near or above surface water. Avoid release to drains.  
Cover soils adjacent to the objects to be treated with plastic of at least 50 cm width.

#### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

Particulars of likely direct or indirect effects: Not known if the product is used properly according to the product label.

Description of first aid measures

General advice: First aid personnel should pay attention to their own safety. If you feel unwell, seek medical advice (show the label where possible).

If inhaled: Keep patient calm, remove to fresh air, seek medical attention.

In case of skin contact: Wash off immediately with soap and plenty of water.

In case of eye contact: Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed: Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Consult a physician if necessary.

Emergency measures to protect the environment: Should not be released into the environment. Do not flush into surface water or sanitary sewer system.

#### 5.4. Instructions for safe disposal of the product and its packaging

Dispose empty packaging material according to national regulations.

#### 5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Requirements for storage areas and containers:

Store protected against frost. Keep in a cool place. Keep in the original container.

Further information on storage conditions: Keep away from food, drink and animal feed.

Storage period: 4 years

Storage temperature: 2 -25 °C
