

AUTHORISATION NUMBER:

IE/BPA 70172

EUROPEAN COMMUNITIES (AUTHORISATION, PLACING ON THE MARKET,  
USE AND CONTROL OF BIOCIDAL PRODUCTS)  
REGULATIONS

CERTIFICATE OF AUTHORISATION

The Competent Authority for Biocides in Ireland, pursuant to the provisions of the European Communities (Authorisation, Placing on the Market, Use and Control of Biocidal Products) Regulations, 2001, (S.I. 625 of 2001, as amended), grants authorisation to:

**Belgagri S.A.  
Rue des Tuiliers 1  
B4480 Engis  
Belgium**

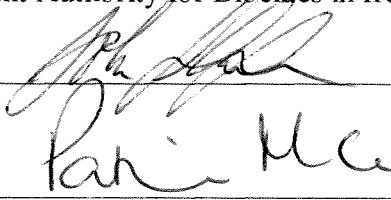

to place the biocidal product:

**Control Bar**

on the market in Ireland, subject to the conditions detailed in the Annexes to this certificate.

---

Authorisation granted on behalf of the Competent Authority for Biocides in Ireland by

  
\_\_\_\_\_  
Pádraic McE  
\_\_\_\_\_

Pesticide Registration and Control Division, (PRCD).

**Date of authorisation: 30 September 2012**

Official Stamp:

## ANNEX I

### Conditions and Product Summary

This authorization may be subject to review in accordance with the European Communities (Authorisation, Placing on the Market, Use and Control of Biocidal Products) Regulations, 2001, (S.I. 624 of 2001, as amended). The outcome of such a review may lead to amendments to or the revocation of this authorization.

The following conditions apply:

1. This product shall **not** be used as a tracking poison, shall be ready-to-use and shall contain an adverse agent and/or dye.
2. Product may **not** be placed on the Irish Market unless it complies with the Annexes of this authorisation.
3. The requirements and conditions, specified in the Annexes, of this authorisation may **not** be altered without prior approval of modifications by the Irish Competent Authority for Biocides in Ireland. Where any amendments are made to the original authorisation in another Member State, the Irish Competent Authority for Biocides in Ireland must be informed by the Authorisation Holder.
4. The holder of this certificate for authorisation must inform or provide the Irish Competent Authority for Biocides with any new or requested information/data, respectively, that shows this biocidal product and/or any of its active substances cause or may cause an adverse effect on human or animal health, ground water or the environment.
5. All product placed on the Irish market must comply with the classification, labelling and packaging requirements established in: S.I. 625 (2001) Regulation 33 (as amended) transposing Article 20 of Directive 98/8/EC; S.I. 624 (2001) transposing Directive 99/45/EC; the Chemicals Act 2008 (as amended) transposing Regulation (EC) No 1272/2008; and the Classification, Labelling and Packaging Annex detailed in this certificate.
6. A printed copy of the Irish label must be submitted to the Irish Competent Authority for Biocides prior to any product being placed on the Irish market. All product labels must carry the authorisation number of the form: IE/BPA 70172 and relevant suffixes.
7. A product safety data sheet (SDS) prepared in compliance with Regulation (EC) No 1907/2006 (as amended), as transposed in Ireland by the Chemicals Act 2008 (as amended), must be submitted to the Irish Competent Authority for Biocides and the National Poisons Information Centre of Ireland, Beaumont Hospital, Beaumont Road, Dublin 9 – before product is placed on the market for sale or use.
8. On an annual basis, details of the quantities of this product (by pack size) manufactured in Ireland, imported into Ireland and/or exported from Ireland must be submitted to the Irish-CA by 31 January of the following year.
9. Fees are payable for the maintenance of the product on the Register of Biocidal Products and shall be paid by the 31<sup>st</sup> December of the following year and each year thereafter.

**Product Summary**

Product name:	Control Bar
Authorisation type:	Authorization
Authorisation number:	IE/BPA 70172
Main Group:	MG03 (Pest Control)
Product-type:	PT14 (Rodenticides)
Frame Formulation (Y/N):	No
Date of authorisation:	30 September 2012
Date of authorisation expiry:	30 June 2016
IUPAC name of the active substance:	3-[3-(4'-bromobiphenyl-4-yl)-3-hydroxy-1-phenylpropyl]-4-hydroxycoumarin
Common name of the active substance:	Bromadialone
CAS number:	28772-56-7
EC number:	249-205-9
Content of active substance:	0.005% w/w
Information on co-formulants that classify:	Not applicable
Formulation type:	Ready-to-use (RB)
Statement of use:	A cluster grain bait bar containing Bromadialone (0.005% w/w) for use as a rodenticide by non-professionals for the control of rats and mice indoors and around buildings for the protection of public health, stored products and materials.
Area of use:	IV.1 Indoor use IV.2 Outdoors around buildings
Target organism(s):	(I.1.1.1) Brown rats ( <i>Rattus Norvegicus</i> ) (I.1.1.2) House rat, roof rat, black rat ( <i>Rattus rattus</i> ) (I.1.1.3) House mouse ( <i>Mus musculus</i> ) (I.1.1.4) Field mouse (Other <i>Muride</i> )
Development stage:	(II.1) Juveniles (II.2) Adults
Function:	Rodenticide
Mode of action:	Anticoagulant III.2 long-term action

	III.2.1 anticoagulant
	III.2.1.1 ingestion toxin
	III.2.1.1.1 ingestion by eating
Application method:	VI.2 Covered applications
	VI.2.1 In bait stations
	VI.2.2 Other coverings
Application aim:	VII.1 Stored product protection/food protection
	VII.2 Health protection
	VII.3 Material protection (e.g. historical buildings, technical objects)
User Category:	V.1 Non Professional/General public
	V.2 Professional
	V.3 Trained/specialised professional

**ANNEX II**

**Product Classification, Labelling and Packaging**

The following conditions apply:

**Classification**

**Classification according to Directive 99/45/EC (valid until 1<sup>st</sup> June 2017)**

The following symbols and indications of danger: Not applicable

The following risk phrases: Not applicable

The following safety phrases: S1+S2: Keep locked up and out of reach of children  
 S13: Keep away from food, drink and animal feeding stuffs.  
 S20 + S21: When using do not eat, drink or smoke.  
 S35: This material and its container must be disposed of in a safe way.  
 S46: If swallowed, seek medical advice immediately and show this container or label.  
 S49: Keep only in the original container.  
 S61: Avoid release to the environment. Refer to special instructions/safety data sheet.

**Classification according to Regulation (EC) No 1272/2008**

The following pictograms and signal word(s) (if applicable): Not applicable

The following hazard statements (if applicable): Not applicable

The following precautionary statements (if applicable): P102: Keep out of reach of children.  
 P103: Read label before use.  
 P220: Keep/Store away from food, drink and animal feeding stuffs.  
 P270: Do not eat, drink or smoke when using this product.  
 P273: Avoid release to the environment.  
 P301 + 310: IF SWALLOWED: Immediately call a poison centre or doctor/physician.  
 P404 + 405: Store locked up in a closed container.  
 P501: Dispose of contents/container in accordance with national regulations.

**Labelling**

**Please note:** The section on labelling below outlines the minimum labelling requirements for the product in addition to the statutory classification requirements indicated in the classification section above. Authorisation holders may place additional label information as they consider necessary, which must be in accordance with relevant labelling legislation.

Product Name:	Control Bar
Authorisation No.:	IE/BPA 70172
Common names and content of each active ingredient:	Bromadiolone (0.005% w/w)
Name of any additional dangerous substances in the product:	Not applicable
Nature of formulation:	Ready-to-use (RB)
Function:	For Use as a Rodenticide Only
Restriction on category of user:	For Amateur Use
Batch number and expiry date:	Must be printed or embossed on label or packaging
'e-mark':	Must be printed on label
The name, address of the authorisation holder:	Belgagri S.A. Rue des Tuiliers 1 B4480 Engis Belgium
Tel:	+32 85519519 <a href="mailto:belgagri@belgagri.com">belgagri@belgagri.com</a>
If different, the name and address of the marketing company:	Not applicable
Addition safety Information:	To avoid risks to human health and the environment, comply with the instructions for use. Harmful to wildlife Use bait containers clearly marked "poison" at all surface baiting points. Remove all remains of bait, dead rodents during and after treatment and dispose of safely. Prevent access to bait by children, domesticated animals and pets, (particularly cats, dogs and pigs).

Special labelling provisions for Ireland:

Use Biocides Safely and Sustainably  
It is illegal to use this product for uses or in a manner other than that prescribed on this label.

If a separate leaflet is attached to or supplied with the product, add the following information to the front label:

Read attached instructions before use

Particulars of direct or indirect adverse effects:

Effects result from the inhibition of blood coagulation as Bromadiolone interacts with vitamin K1. Poisoning symptoms may include: bruising easily, nose or gum bleeds, blood in stools or urine, excessive bleeding from minor cuts or abrasions. Note that poisoning symptoms may develop over the course of several days.

First aid information for use in the event of accidental exposure or ingestion.

First Aid:  
GENERAL: In case of accident, suspected exposure or if you feel unwell, seek medical advice immediately (show the label where possible).  
IF SWALLOWED: Seek medical advice immediately.  
CONTACT WITH SKIN: Wash with soap and water. Remove and launder any contaminated clothing.  
CONTACT WITH EYES: Remove contact lenses if present and rinse the eye slowly and gently with water for 15-20 minutes. Seek medical advice immediately.

Note to Physician: Antidote – Vitamin K1 – under medical supervision.

National Poison Centre information and reporting of incidents

Poison Information: For information or to report a poisoning incident contact The National Poisons Information Centre, Beaumont Hospital, Dublin (01-8092166), retain the label for reference.

**Directions for use** (*may be included on separate leaflet - if separate leaflet is used, Trade Name and Authorization Number must be stated*):

**Statement of use**

“A cluster grain bait bar containing Bromadiolone (0.005% w/w) for use as a rodenticide by non-professionals for the control of rats and mice indoors and around buildings for the protection of public health, stored products and materials.”

**Instructions for safe handling and use**

- Always read the label before use and follow the instructions provided.
- Avoid all unnecessary exposure, in particular avoid ingestion.
- Baits must be secured inside bait boxes or other secure coverings to minimize the risk of consumption and poisoning to other animals or children. Where possible, secure baits so that they cannot be dragged away.

- Dead rodent bodies, remains of unused bait or any fragments of bait found away from the bait station must be collected during all control operations to minimize the risk of consumption and poisoning to children, companion animals and other non-target animals.
- Wash hands after use of the product and before eating, drinking or smoking.

### **Application Details:**

Indoors and outdoors around buildings

Rats:

Place 60-90g of bait in tamper resistant bait stations or covered bait points spaced 10 m apart (5 m apart in areas of high infestation) in areas where rats are active. Regularly check bait consumption and replace consumed or spoilt bait until consumption has stopped. Repeat treatment in situations where there is evidence of new infestation (e.g. fresh tracks or droppings).

Mice:

Place up to 30g of bait in bait stations or covered bait points spaced 5m apart (2m apart in high infestation areas) in areas where mice are active. Regularly check bait consumption and replace consumed or spoilt bait until consumption has stopped. Repeat treatment in situations where there is evidence of new infestation (e.g. fresh tracks or droppings).

### **Resistance Information**

The resistance status of the rodent population to Bromadiolone should be taken into account when considering the choice of rodenticide to be used. When in doubt or where the baiting measures are unsuccessful, consult a professional pest control operator.

### **Storage Instructions**

Store in a cool, dry, well-ventilated place.

Store locked up in the original container tightly closed.

### **Directions for the safe disposal**

This material and its container must be disposed of safely.

Dispose of packaging, remains of unused product and dead rodents in accordance with local regulations.

If required, consult a professional waste operator or local authority.

### **Packaging**

- Maximum pack size for amateur refill products is 500g.
- Rodenticide bait products sold to amateurs must be supplied as either pre-baited bait stations or pre-baited tamper resistant bait stations and refill packs.
- Bait in pre-baited bait stations must be supplied in a quantity that will deliver a lethal effect to the target rodent.
- Bait in refill amateur products must be supplied in inner packs or units (e.g. sachets/wrapped), each containing enough bait for one point.

<b>Packaging type/description</b>	<b>Packaging material<sup>1</sup></b>	<b>Pack Sizes</b>
