

Nikolaos GEORGIADIS

Nikolaos Georgiadis is a toxicologist with more than 15 years of experience in the field of international regulation linked to chemicals.

Nikolaos holds a PhD and a MSc in Toxicology from the University of Thessaly (Greece). Additionally, he holds a university degree in Food Science, an integrated Master in Food Science and Technology and an MSc in Pharmacognosy from the Aristotle University of Thessaloniki, as well as, a Master of Business Administration (MBA) from the City University of Seattle (USA).

Nikolaos started his career in 2003 in private sector, in the Quality Assurance Departments of various food industries in the UK, Greece and North Macedonia. In 2007 he also started his own consulting business.

Since September 2010 he was working as Human Health Toxicologist with European Chemicals Agency (ECHA) and European Food Safety Authority (EFSA).

He first joined ECHA's secretariat in 2010. During this period, he worked as a Scientific Dossier Manager, focussing in particular on issues related to data sharing under the REACH Regulation and contributing to the establishment of the data sharing disputes process. He also worked on issues related to the CLP Regulation.

In 2015, he joined EFSA's Risk Assessment Department focussing on issues related to human health risk assessment methodologies such as the weight of evidence approach, biological relevance in the scientific assessments and uncertainty analysis. In 2018, he returned to ECHA. He joined Hazard Assessment Department, where, as a human health toxicologist, he worked on the Dossier Evaluation process.

Nikolaos published various articles and book chapters, as well as numerous scientific opinions, dealing with methodologies for risk assessment.

Nikolaos is a certified Expert in Toxicology by the British Society of Toxicology and a Eurotox certified Toxicologist (ERT).
