4. Authorised use(s)

4.1 Use description

Use 1 - Asian Tiger Mosquito Attractant

Product type	PT19 - Repellents and attractants (Pest control)
Where relevant, an exact description of the authorised use	Mosquito Attractant
Target organism(s) (including development stage)	Scientific name: Aedes albopictus Common name: Asian tiger mosquito Development stage: Adults
Field(s) of use	Indoor Outdoor
Application method(s)	Method: Pouch containing granules placed in mosquito trap Detailed description:

	Pouch containing granules placed in mosquito trap with ventilator.
Application rate(s) and requencies	Application Rate: One pouch (0.98 % lactic acid, 13 g granules) per trap with ventilator Dilution (%): - Number and timing of application: One pouch (0.98 % lactic acid, 13 g granules) per trap with ventilator can be used running continuously for up to 8 weeks.
	Professional
Category(ies) of users	General public (non-professional)
	Contrat passe (non-processorial)
Pack sizes and packaging material	Heat Sealed Pouch (Spunbound HDPE): 13.0 g product per pouch Heat Sealed Bag (Aluminium composite film (PET12/ALU8/PE80)): 1 pouch contained per bag. 150 x 210 mm

See general directions for use	
.1.5 Where specific to the u	se, the conditions of storage and shelf-life of the product

See general directions for use	

5. General directions for use

5.1. Instructions for use

Remove white pouch (containing attractant granules) from the packaging and place it inside the mosquito trap with ventilator. Traps must have a ventilator to ensure a sufficient efficacy/diffusion of the product. Do not open the white pouch. Asian Tiger Mosquitoes will be attracted after the trap with ventilator has been switched on and placed properly (see "Trap placement"). The trap with ventilator has to run continuously with the BG-Sweetscent inside to be effective for up to 8 weeks.

A recommended distance between traps is over a 20 m radius based on mosquito behaviour and biology, with a higher density of traps only if the level of infestation is high. Comply with the instructions for use.

5.2. Risk mitigation measures

Wash hands after handling.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

If medical advice is needed, have product container or label at hand.

IF INHALED: If symptoms occur call a POISON CENTRE or a doctor.

IF ON SKIN: Wash skin with water. If symptoms occur call a POISON CENTRE or a doctor.

IF IN EYES: If symptoms occur rinse with water. Remove contact lenses, if present and easy to do. Call a POISON CENTRE or a doctor.

IF SWALLOWED: If symptoms occur call a POISON CENTRE or a doctor.

5.4. Instructions for safe disposal of the product and its packaging

Dispose of contents/container in accordance with local regulations. Uncontaminated packaging may be taken for recycling.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Keep only in original container. Keep container tightly closed and store it at a well-ventilated, cool and dry place. Do not open packaging until the time of use. Keep out of reach of children and non-target animals/pets. Keep away from food, drink and animal feeding stuff. Shelf-life: 24 months
