Administrative information

1.1. Trade names of the product

INSECTRAC SPTab

1.2. Authorisation holder

Name and address of the authorisation holder	Name	Maxiline sprl
	Address	Avenue Lambeau 110 1200 Woluwe-Saint-Lambert Belgium
Authorisation number	EU-0026008-0000	
R4BP 3 asset reference number	EU-0026008-0000	
Date of the authorisation	03/09/2021	
Expiry date of the authorisation	19/07/2026	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	International Pheromone Systems Ltd.
Address of the manufacturer	Evolution House, Long Acres Road, Clayhill Industrial Estate, Neston CH64 3RL Cheshire United Kingdom
Location of manufacturing sites	Evolution House, Long Acres Road, Clayhill Industrial Estate, Neston CH64 3RL Cheshire United Kingdom

1.4. Manufacturer(s) of the active substance(s)

Active substance	1433 - (9Z,12E)-tetradeca-9,12-dien-1-yl acetate
Name of the manufacturer	Aeraxon Insect Control GmbH
Address of the manufacturer	Bahnhofstraße 35 71332 Waiblingen Germany
Location of manufacturing sites	Bahnhofstraße 35 71332 Waiblingen Germany

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
(9Z,12E)-tetradeca-9,12-dien-1-yl acetate		Active Substance	30507-70-1		1

2.2. Type of formulation

CP - Contact powder

3. Hazard and precautionary statements

Hazard statements	
Precautionary statements	

4. Authorised use(s)

4.1 Use description

Use 1 - Professional

Product type	PT19 - Repellents and attractants (Pest control)
Where relevant, an exact description of the authorised use	For use as a moth attractant/mating disruptor indoors by professional users
Target organism(s) (including development stage)	Scientific name: Pyraloidea: Plodia interpunctella Common name: Indian Meal Moth Development stage: Adults Scientific name: Pyraloidea: Ephestia kuehniella Common name: Mediterranean Flour Moth Development stage: Adults Scientific name: Pyraloidea: Ephestia elutella Common name: Warehouse/Cocoa Moth Development stage: Adults Scientific name: Pyraloidea: Cadra cautella Common name: Almond moth Development stage: Adults Scientific name: Pyraloidea: Cadra figuliella Common name: Raisin Moth Development stage: Adults
Field(s) of use	Indoor I Indoors only
Application method(s)	Method: Manual application Detailed description: A compressed tablet is inserted into a plastic dispensing unit which is secured to walls, pillars, machinery and other suitable surfaces (i.e. not above conveyor belts or where powder may fall into a recipe). Dispensers are deployed 1-2 metres above ground level at a rate of 1 tablet per 25.0 m ² floor area.
Application rate(s) and frequencies	Application Rate: 10 mg per 25 m ² Dilution (%): 0 Number and timing of application: 1 tablet covers 25m ² Tablets are replaced every 60 days.
Category(ies) of users	Professional
Pack sizes and packaging material	Sachet, Plastic: composite: , 80 x 130 x 25 mm Box, Paper, cardboard , 130 x 70 x 33 mm PE/PET laminated DOY sachet containing 24 x 1g tablets, contained within an outer box

Tamper evident seal

4.1.1 Use-specific instructions for use

INSECTRAC SPTab consists of tablets made of compressed Entostat powder containing moth pheromone, and a deployment kit. INSECTRAC SPTab tablets and the deployment kit are packaged separately. The deployment kit consists of:

- A box containing 24 plastic dispensing units with adhesive pads;
- A box containing 24 tablets; and
- Instructions for use.

The tablet is inserted into a plastic dispensing unit which is secured to walls, pillars, machinery and other suitable surfaces(i.e. not above conveyer belts or where powder may fall into a recipe). Dispensers are deployed 1-2 metres above ground level.

The deployment instructions are as follows:

- Push tablet firmly into dispenser, leaving approximately 50% of the tablet exposed.
- Remove plastic protection from sticky mounting on back of dispenser.
- Clean surface of substrate and press dispenser, tablet upper-most into position.

Applied at an application rate of 1 tablet (10.0 mg active substance) 25.0 m² floor area and over a period of 60 days per tablet.

Store unopened at or below 25°C.
Use within 6 months.
Once opened, use immediately.

4.1.2 Use-specific risk mitigation measures

For use only by professional operators
The (COSHH) control of substances hazardous to health regulations 2002 may apply to the use of this product at work.

Do not use where food, feed or water could become contaminated.

This material and its container must be disposed of in a safe way.

For indoor use only.
Wash hands and exposed skin before meals and after use.
Keep in a safe place.
Store unopened at or below 25°C.
Use within 6 months.
Once opened, use immediately.

Do not apply directly to tobacco.

Keep out of reach of children.

Do not eat, drink or smoke when using this product.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Inhalation: If powder from the tablet is inhaled, remove to fresh air. If breathing is difficult or symptoms persist, seek medical attention.
Skin contact: In case of contact, wash skin with soap and water.
Contact with eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes. If symptoms persist, seek medical attention.
Ingestion: If ingested, wash out mouth with water. Seek medical attention.
Accidental release measures
Spillages may make floor slippery. Avoid generating dust.

Environmental precautions: In the event of a large spillage, collect the material and dispose of safely.
Sweep up spilled tablets and/or powder into containers for disposal, powder residues may be removed by wiping / mopping the area with a mild detergent solution.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Product waste is not classified as hazardous/special waste and can be sent to landfill or incineration. Packaging should be disposed of in accordance with local regulations.
Do not dispose of in sewers.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Store unopened at or below 25°C.
Use within 6 months.
Once opened, use immediately.
Shelf life of 6 months at 25°C
