

Summary of product characteristics for a biocidal product

Product name: INSECTICIDA DUST PER ZNZ

Product type(s): PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Authorisation number: ES/APP(NA)-2022-18-0848

R4BP 3 asset reference number: ES-0029952-0000

1.2. Authorisation holder

Name and address of the authorisation holder	Name	ZELNOVA ZELTIA S.A.
	Address	Poligono Torneiros s/n 36400 O Porriño Spain
Authorisation number	ES/APP(NA)-2022-18-0848	
R4BP 3 asset reference number	ES-0029952-0000	
Date of the authorisation	21/12/2022	
Expiry date of the authorisation	21/12/2032	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	ZELNOVA ZELTIA
Address of the manufacturer	Poligono Torneiros s/n 36400 Porriño (Pontevedra) Spain
Location of manufacturing sites	Poligono Torneiros s/n 36400 Porriño (Pontevedra) Spain

Name of the manufacturer	MOLIENDA Y DERIVADOS S.A.
Address of the manufacturer	c/ Tenes, 3, Naves C y D (Pol. Ind Llevant) 08150 Parets del Vallés (Barcelona) Spain
Location of manufacturing sites	c/ Tenes, 3, Naves C y D (Pol. Ind Llevant) 08150 Parets del Vallés (Barcelona) Spain

Name of the manufacturer	INDUSTRIALCHIMICA S.r.l.
Address of the manufacturer	Via Sorgaglia, 34 35020 Arre (PD) Italy
Location of manufacturing sites	Via Sorgaglia, 34 35020 Arre (PD) Italy

Name of the manufacturer	SINAPAK S.r.l.
Address of the manufacturer	Viale Industria e Artigianato, 7 27049 Stradella (PV) Italy
Location of manufacturing sites	Viale Industria e Artigianato, 7 27049 Stradella (PV) Italy

Name of the manufacturer	AGROTOTAL – PRODUTOS AGROQUÍMICOS, SA
Address of the manufacturer	Rua dos Navegantes, 48 r/c Esq 1200 – 732 Lisboa Portugal
Location of manufacturing sites	Estrada Nacional, 10. Parque Industrial da ADP (dentro da fábrica ADP Fertilizantes) 2616-907 Alverca do Ribatejo Portugal

Name of the manufacturer	VEBI ISTITUTO BIOCHIMICO S.R.L.
Address of the manufacturer	Via Desman, 43 35010 Borgoricco (PD) Italy
Location of manufacturing sites	Via Desman, 43 35010 Borgoricco (PD) Italy

Name of the manufacturer	BOLASECA S.A.
Address of the manufacturer	c/Rosales, 2 - BIS 30565 Las Torres de Cotillas (Murcia) Spain
Location of manufacturing sites	c/Rosales, 2 - BIS 30565 Las Torres de Cotillas (Murcia) Spain

Name of the manufacturer	LABORATORIOS AGROCHEM SL
Address of the manufacturer	Tres Rieres, 10 Pol. Ind. Sur 08292 Esparreguera (Barcelona) Spain
Location of manufacturing sites	Tres Rieres, 10 Pol. Ind. Sur 08292 Esparreguera (Barcelona) Spain

1.4. Manufacturer(s) of the active substance(s)

Active substance	1342 - Permethrin
Name of the manufacturer	LIMARU NV (Acting for Tagros Chemicals India Private Limited)
Address of the manufacturer	Ziepstraat 5 3680 Neeroeteren Belgium
Location of manufacturing sites	Tagros Chemicals India Private Limited Jhaver Center", IV Floor, Rajha Annamalai Building , No. 72, Marshalls Road, Egmore.A4/1&2, SIPCOT Industrial Complex, Kudikadu 607 005 Cuddalore, Tamil Nadu India

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Permethrin		Active Substance	52645-53-1	258-067-9	0,5
Butyldiglycoether	2-(2-butoxyethoxy)ethanol	Non-active substance	112-34-5	203-961-6	1,67

2.2. Type of formulation

DP - Dustable powder

3. Hazard and precautionary statements

Hazard statements

Very toxic to aquatic life with long lasting effects.
Very toxic to aquatic life with long lasting effects.

Precautionary statements

Avoid release to the environment.
Collect spillage.
Dispose of contents to container..

4. Authorised use(s)

4.1 Use description

Use 1 - Use # 1 – Indoor – spot to surface in hiding places – crawling insects - cockroaches – Professionals / Trained Professionals

Product type

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Where relevant, an exact description of the authorised use

The product is applied by spot treatment against crawling insects in empty rooms at industrial and domestic facilities as kitchens and store rooms. It is applied in hiding places and areas as garages, lofts, attics, garrets, kitchens... where crawling insects are looking for food, paying special attention to grooves and cracks and areas behind or under machinery, kitchen equipment or pipes.

Target organism(s) (including development stage)

Scientific name: *Blattella germanica*
Common name: Cockroaches
Development stage: adults and nymphs

Scientific name: *Blatta orientalis*
Common name: Cockroaches
Development stage: adults and nymphs

Field(s) of use

Indoor

Indoor – spot to surface in hiding places

Application method(s)

Method: Dusting

	<p>Detailed description:</p> <p>The product is applied by dusting downwards on corners (spot treatment) and in hiding places (including crack and crevices) wherein the insects use to hide using handheld duster, bulb duster or powder container.</p>
<p>Application rate(s) and frequencies</p>	<p>Application Rate: 10 g/m² . Dilution (%): Not applicable Number and timing of application:</p> <p>10 g/m² (equivalent to 20 rotations/m² with the dust dispenser) If invasion persists, re-apply the product if necessary every 5 weeks. Use maximum up to 11 application per year</p>
<p>Category(ies) of users</p>	<p>Trained professional</p> <p>Professional</p>
<p>Pack sizes and packaging material</p>	<p><u>Professionals:</u> Tube/bottle plastic: 50, 100, 150, 200, 250, 300, 350, 400, 450, 500, 550, 600, 650, 700, 750, 800, 850, 900, 950, 1000, 1500, 2000, 2500, 3000, 4000, 5000 g. <u>Trained Professionals:</u> Tube/bottle plastic: 50, 100, 150, 200, 250, 300, 350, 400, 450, 500, 550, 600, 650, 700, 750, 800, 850, 900, 950, 1000, 1500, 2000, 2500, 3000, 4000, 5000 g. Bag, aluminium+plastic. 50, 100, 150, 200, 250, 300, 350, 400, 450, 500, 550, 600, 650, 700, 750, 800, 850, 900, 950, 1000, 1500, 2000, 2500, 3000, 4000, 5000, 6000, 7000, 8000, 9000, 10000, 11000, 12000, 13000, 14000, 15000, 16000, 17000, 18000, 19000, 20000, 21000, 22000, 23000, 24000, 25000 g. Bag (plastic) inside case (cardboard). 50, 100, 150, 200, 250, 300, 350, 400, 450, 500, 550, 600, 650, 700, 750, 800, 850, 900, 950, 1000, 1500, 2000, 2500, 3000, 4000, 5000, 6000, 7000, 8000, 9000, 10000, 11000, 12000, 13000, 14000, 15000, 16000, 17000, 18000, 19000, 20000, 21000, 22000, 23000, 24000, 25000 g.</p>

4.1.1 Use-specific instructions for use

The application is restricted to areas that are not wet cleaned.
The product has to be applied only on restricted areas on surfaces not regularly cleaned, for example behind or under the fridge, under the kitchen sink, under the oven or the water heater, in all cracks and crevices that can be a harborage for cockroaches. Remove (clean) product and dead insects, when the presence of live insects is stopped.
Do not use of wet cleaning procedures. Use only dry-cleaning procedures (vacuum or broom) or use damp paper. After cleaning, dispose the collected residues or the damp papers used as hazardous wastes in accordance with current regulation.

4.1.2 Use-specific risk mitigation measures

The application is restricted to areas that are not wet cleaned.
Remove (clean) product and dead insects when the presence of live insects is stopped.
Cover the soil with a plastic sheet before mixing and loading the biocidal product prior to application.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Refer to general direction of use

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Trained Professional:
Empty containers, unused product, washing water, containers and other waste generated during the treatment are considered hazardous waste. Deliver those wastes to a registered establishment or undertaking, in accordance with current regulations. Code the waste according Decision 2014/955/EU.
Do not release to soil, ground, surface water or any kind of sewer.

Professional:
Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.
Do not release into soil, ground, surface water or any kind of sewer .

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Refer to general direction of use

4.2 Use description

Use 2 - Use # 2 – Indoor – spot to surface in hiding places – crawling insects - cockroaches – General public (Non-professional users)

Product type	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
Where relevant, an exact description of the authorised use	The product is a ready-to-use product to be dusted over at domestic facilities as kitchens and store rooms. It is applied in hiding places and areas as garages, lofts, attics, garrets, kitchens... where crawling insects are looking for food, paying special attention to grooves and cracks and areas behind or under machinery, kitchen equipment or pipes.
Target organism(s) (including development stage)	Scientific name: <i>Blattella germanica</i> Common name: Cockroaches Development stage: adults and nymphs Scientific name: <i>Blatta orientalis</i> Common name: Cucarachas Development stage: adults and nymphs

Field(s) of use	Indoor Indoor – spot to surface in hiding places
Application method(s)	Method: Dusting Detailed description: The product is applied by dusting downwards on corners (spot treatment) and in hiding places (including crack and crevices) wherein the insects use to hide using the powder container.
Application rate(s) and frequencies	Application Rate: 10 g/m ² (equivalent to 20 rotations/m ² with the dust dispenser) Dilution (%): Not applicable. Number and timing of application: Application rate(s) and frequency 10 g/m ² (equivalent to 20 rotations/m ² with the dust dispenser) If invasion persists, re-apply the product if necessary every 4 weeks.
Category(ies) of users	General public (non-professional)
Pack sizes and packaging material	Tube/bottle plastic: 50, 100, 150, 200, 250, 300, 350, 400, 450, 500 g See also section 6 for more information.

4.2.1 Use-specific instructions for use

The application is restricted to areas that are not wet cleaned.
The product has to be applied only on restricted areas on surfaces not regularly cleaned, for example behind or under the fridge, under the kitchen sink, under the oven or the water heater, in all cracks and crevices that can be a harborage for cockroaches. Remove (clean) product and dead insects, when the presence of live insects is stopped.
Do not use of wet cleaning procedures. Use only dry-cleaning procedures (vacuum or broom) or use damp paper. After cleaning, dispose the collected residues or the damp papers used as hazardous wastes in accordance with current regulation.

4.2.2 Use-specific risk mitigation measures

The application is restricted to areas that are not wet cleaned.
Remove (clean) product and dead insects when the presence of live insects is stopped.
Because the product is intended for use by consumers (non-professionals), it is necessary to make clear that there might be a risk of building up resistance and that this can be reduced. Since consumers have no knowledge of resistance issues the label claim should contain information to prevent it. To this aim the following phrase is proposed: "To avoid resistance occurrence, keep the label instructions and avoid repeated use of products containing permethrin. Alternate with products containing different active substances. When the infestation persists contact a (trained) professional."

4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Refer to general direction of use

4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.
Do not release into soil, ground, surface water or any kind of sewer.

4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Refer to general direction of use

4.3 Use description

Use 3 - Use # 3 – Outdoor – Directly application in ant nests – Professionals / Trained Professionals

Product type

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Where relevant, an exact description of the authorised use

The product is dusted directly into the ant nests.

Target organism(s) (including development stage)

Scientific name: *Lasius niger*
Common name: black ants
Development stage: adults, larvae, nymphs, queen

Field(s) of use

Outdoor

Outdoor

The product is applied directly to the ant nests, around houses on paved ways, balconies, and terraces where ant nests are located.

Application method(s)

Method: Dusting
Detailed description:

Application rate(s) and frequencies

Application Rate: Apply 2.5 g maximum per nest (in 0.25 m², e.g. 50cm*50cm), equivalent to 5 rotations per nest when the duster dispenser is used (application rate: 10 g/m²)
Dilution (%): Not applicable.
Number and timing of application:

Apply 2.5 g maximum per nest (in 0.25 m², e.g. 50cm*50cm), equivalent to 5 rotations per nest when the duster dispenser is used (application rate: 10 g/m²)

Repeat the treatment 1-2 times per year.

Category(ies) of users

Bag (plastic) inside case (cardboard). 50, 100, 150, 200, 250, 300, 350, 400, 450, 500, 550, 600, 650, 700, 750, 800, 850, 900, 950, 1000, 1500, 2000, 2500, 3000, 4000, 5000, 6000, 7000, 8000, 9000, 10000, 11000, 12000, 13000, 14000, 15000, 16000, 17000, 18000, 19000, 20000, 21000, 22000, 23000, 24000, 25000 g

See also section 6 for more information.

4.3.1 Use-specific instructions for use

To achieve full effect, identify the ant nest's location carefully and apply the product there.
After product's application, cover the treated area with a plastic tarp or small bucket to avoid that the product could be carried away by rainwater or air.

4.3.2 Use-specific risk mitigation measures

Cover the soil with a plastic sheet before mixing and loading the biocidal product prior to application.

4.3.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Refer to general directions of use

4.3.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Professional:

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.
Do not release into soil, ground, surface water or any kind of sewer.

Trained Professional:

Empty containers, unused product, washing water, containers and other waste generated during the treatment are considered hazardous waste. Deliver those wastes to a registered establishment or undertaking, in accordance with current regulations.
Code the waste according Decision 2014/955/EU.
Do not release to soil, ground, surface water or any kind of sewer.

4.3.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Refer to general directions of use

4.4 Use description

Use 4 - Use # 4 – Outdoor – Directly application in ant nests – General public (non- professional users)

Product type

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Where relevant, an exact description of the authorised use

The product is dusted directly into the ant's nest.

Target organism(s) (including development stage)

Scientific name: *Lasius niger*
Common name: Ants
Development stage: adults, larvae, nymphs, queen

Field(s) of use

Outdoor

The product is applied directly to the ant nests, around houses on paved ways, balconies, and terraces where ant nests are located.

Application method(s)

Method: Dusting
Detailed description:

Application rate(s) and frequencies

Application Rate: The application rate is 2.5 g maximum per nest (in 0.25 m², e.g. 50 cm * 50 cm), equivalent to 5 rotations per nest (application rate: 10 g/m²)
Dilution (%): Not applicable
Number and timing of application:

	<p>The application rate is 2.5 g maximum per nest (in 0.25 m², e.g. 50 cm * 50 cm), equivalent to 5 rotations per nest (application rate: 10 g/m²)</p> <p>Repeat the treatment 1-2 times per year.</p>
Category(ies) of users	<p>General public (non-professional)</p>

4.4.1 Use-specific instructions for use

To achieve full effect, identify the ant nest's location carefully and apply the product there.
After product's application, cover the treated area with a plastic tarp or small bucket to avoid that the product could be carried away by rainwater or air.

4.4.2 Use-specific risk mitigation measures

Because the product is intended for use by consumers (non-professionals), it is necessary to make clear that there might be a risk of building up resistance and that this can be reduced. Since consumers have no knowledge of resistance issues the label claim should contain information to prevent it. To this aim the following phrase is proposed: "To avoid resistance occurrence, keep the label instructions and avoid repeated use of products containing permethrin. Alternate with products containing different active substances. When the infestation persists contact a (trained) professional."

4.4.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Refer to general direction of use

4.4.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.
Do not release into soil, ground, surface water or any kind of sewer.

--

4.4.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Refer to general direction of use

4.5 Use description

Use 5 - Use # 5 – Indoor – Non-washable textile surfaces – General public (non- professional users)

Product type	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
Where relevant, an exact description of the authorised use	The product is applied at domestic use (houses, flats, apartments) over textile surfaces that must be cleaned by dry treatments as mattresses, blankets, bedspreads, bedsteads, pillows, carpets, moquette...
Target organism(s) (including development stage)	Scientific name: Dermatophagoides pteronyssinus Common name: . Development stage: adults and nymphs Scientific name: Ixodes ricinus Common name: . Development stage: adults and nymphs Scientific name: Rhipicephalus sanguineus Common name: . Development stage: adults and nymphs Scientific name: Ctenocephalides felis Common name: Cat flea Development stage: Adults
Field(s) of use	Indoor Field(s) of use Indoors – non-washable textile surfaces (surface treatment)
Application method(s)	Method: Dusting Detailed description: The product is a ready-to-use product to be dusted over the mattresses, carpet, moquette,... directly from the ready-to-use powder container. Once the efficacy time is over keep the product up to 24 h maximum and after that, the treated surface must be vacuumed with the vacuum cleaner in order to release killed insects and product's residue.
Application rate(s) and frequencies	Application Rate: 10 g/m ² Dilution (%): Number and timing of application:

	10 g/m ² (equivalent to 20 rotations/m ² with the dust dispenser) This use is intended to be applied once per year.
Category(ies) of users	General public (non-professional)
Pack sizes and packaging material	Tube / bottle, plastic: 50, 100, 150, 200, 250, 300, 350, 400, 450, 500 g See also section 6 for more information.

4.5.1 Use-specific instructions for use

Apply to infested rugs paying special attention to edges and wall-to-wall rugs.
Do not use of wet cleaning procedures. Use only dry-cleaning procedures (vacuum or broom) or use damp paper. After cleaning, dispose the collected residues or the damp papers used as hazardous wastes in accordance with current regulation.

4.5.2 Use-specific risk mitigation measures

Because the product is intended for use by consumers (non-professionals), it is necessary to make clear that there might be a risk of building up resistance and that this can be reduced. Since consumers have no knowledge of resistance issues the label claim should contain information to prevent it. To this aim the following phrase is proposed: "To avoid resistance occurrence, keep the label instructions and avoid repeated use of products containing permethrin. Alternate with products containing different active substances. When the infestation persists contact a (trained) professional."

4.5.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Refer to general direction of use

4.5.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.
Do not release into soil, ground, surface water or any kind of sewer.

4.5.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Refer to general direction of use

5. General directions for use

5.1. Instructions for use

Always read the label or leaflet before use and follow all the instructions provided.
The product has to be applied by spreading the powder evenly on the surfaces and all those areas where insects usually nest.
The product should be applied at 10 g/m². For non-professional equivalent to 20 rotations/m² (spot to surface in hiding places and non-washable textile surfaces) or 5 rotations (ant nest) when using dust dispenser. For other application devices, fill the required quantity using the dosage spoon.
Further specific information for each use can be found in respective section of the use.
The biocidal product contains permethrin (synthetic pyrethroid). DO NOT USE if under medical advice NOT to work with such compounds.

5.2. Risk mitigation measures

Do not spread onto people and pets.
Do not use/apply directly on or near food, feed or drinks, or on surfaces or utensils likely to be in direct contact with food, feed, drinks and animals.
Keep cats away from treated surfaces. Due to their particular sensitivity to pyrethroids, the product can cause severe adverse reactions in cats.
Remove or cover terrariums, aquariums and animal cages before application. Turn off aquarium air-filter while spreading.
Contains permethrin, may be dangerous/toxic to pets (e.g. cats, bees, fish and other aquatic organisms).
Keep uninvolved persons, children and pets away from treated surfaces/areas until dried.
Use Personal Protection Equipment (PPE) for (trained) professionals users
Use clean personal protective equipment in good condition.
Store personal protective equipment in a clean place, away from the work area.
During use, do not eat, drink or smoke. Remove and wash contaminated clothing before reuse. Provide adequate ventilation, especially in closed areas.
Hand protection: Wear protective chemical resistant gloves during product handling phase (glove material to be specified by the authorisation holder within the product information).

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

IF INHALED: If symptoms occur call a POISON CENTRE or a doctor.
IF SWALLOWED : If symptoms occur call a POISON CENTRE or a doctor.
IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation or rash occur: Get medical advice.
