Comment on dossier proposing harmonised classification and labelling of Allyl methacrylate

Dear Sir or Madam,

On 24th of February 2020, ECHA published a CLH proposal of the Austrian MSCA to classify Allyl methacrylate, EC number 202-473-0, for its acute toxic properties.

We are herewith commenting as Evonik Resource Efficiency GmbH as Lead Registrant of this substance.

With reference to the CLH dossier regarding Allyl methacrylate (EC 202-473-0), we agree with the harmonised classification as

Acute Tox 4, H 302
Acute Tox 3, H 311
Acute Tox 2, H330

proposed by the Austrian MSCA.

Sincerely yours,

Evonik Resource Efficiency GmbH
