Section A8.5 Annex Point IIA, VIII.8.5	Procedures for waste management of the active substance for industry or professional users	
<p>Disposal considerations</p> <p>The industry or professional users should dispose the pure IR3535® direct or by dumping enterprise in thermal utilization as substitute for conventional fuels. As consumer of preparations with IR3535® and related to the IR3535® content, you could dispose these products by dumping with the normal household waste.</p> <p>Product: Chemicals must be disposed in compliance with the respective national regulations. Under www.retrologistik.de you will find country- and substance-specific information as well as contact partners.</p> <p>Packaging: Packaging must be disposed off in compliance with the country-specific regulations or must be passed to a packaging return system. Under www.retrologistik.de you will find country- and substance-specific information as well as contact partners.</p> <p>Examine possibilities for re-utilisation. Package product wastes. Close and label the waste receptacles and, likewise, any uncleaned empty containers. Dispose of them at a suitable waste incineration plant in accordance with the official regulations. Where large quantities are concerned, consult the supplier. When uncleaned empty containers are passed on, the recipient must be warned of any possible hazard that may be caused by residues.</p> <p>For disposal within the EC, the appropriate code according to the European Waste Catalogue (EWC) should be used. It is among the tasks of the polluter to assign the waste to waste codes specific to industrial sectors and processes according to the European Waste Catalogue.</p>	Official use only X
