

Summary of product characteristics for a biocidal product

Product name: VANDAL Ameisen-Frühstück und VANDAL Ameisen-Kombiköder

Product type(s): PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Authorisation number: AT-0015153-0000

R4BP 3 asset reference number: AT-0015153-0000

Administrative information

1.1. Trade names of the product

| |
|---------------------------|
| VANDAL Ameisen-Frühstück |
| VANDAL Ameisen-Kombiköder |

1.2. Authorisation holder

| | | |
|---|-----------------|--|
| Name and address of the authorisation holder | Name | Nifra Parfumerie Gesellschaft m. b. H. |
| | Address | Bräuhausgasse 68 1050 Wien Austria |
| Authorisation number | AT-0015153-0000 | |
| R4BP 3 asset reference number | AT-0015153-0000 | |
| Date of the authorisation | 24/10/2023 | |
| Expiry date of the authorisation | 24/10/2028 | |

1.3. Manufacturer(s) of the biocidal products

| | |
|--|--|
| Name of the manufacturer | "Nifra"Parfumerie Gesellschaft m. b. H. |
| Address of the manufacturer | Bräuhausgasse 68 1050 Vienna Austria |
| Location of manufacturing sites | Norbert Neidlinger Gesellschaft m.b.H., Paschingerstrasse 76 4060 Leonding Austria |

1.4. Manufacturer(s) of the active substance(s)

| | |
|--|---|
| Active substance | 1342 - Permethrin |
| Name of the manufacturer | Limaru NV (Substance Supplier) (Acting for Tagros Chemicals India Limited (India)) |
| Address of the manufacturer | Tagros Chemicals India Limited, "Jhaver Centre", IV Floor, Rajha Annamalai Building, 72, Marshalls Road, Egmore 600 008 Chennai India |
| Location of manufacturing sites | Tagros Chemicals India Ltd. A-4/1&2, Sipcot Industrial Complex Pachayankuppam 607 005 Cuddalore, Tamilnadu India |

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|-------------|
| Permethrin | | Active Substance | 52645-53-1 | 258-067-9 | 3,871 |

2.2. Type of formulation

| |
|-------------|
| XX (others) |
|-------------|

3. Hazard and precautionary statements

| | |
|---------------------------------|--|
| Hazard statements | <p>May cause an allergic skin reaction.</p> <p>Very toxic to aquatic life with long lasting effects.</p> |
| Precautionary statements | <p>If medical advice is needed, have product container or label at hand.</p> <p>Keep out of reach of children.</p> <p>Read carefully and follow all instructions.</p> <p>Avoid release to the environment.</p> <p>IF ON SKIN:Wash with plenty of water.</p> <p>If skin irritation or rash occurs:Get medical advice.</p> <p>If skin irritation or rash occurs:Get medical attention.</p> |

Dispose of contents to according to national legislation.

Dispose of container to according to national legislation.

4. Authorised use(s)

4.1 Use description

Use 1 - Use # 1 – Ants (all stages, nests) – non-professional user – RTU bait station – indoor and outdoor

Product type

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Where relevant, an exact description of the authorised use

Insecticide

Target organism(s) (including development stage)

Scientific name: *Lasius niger*
Common name: Black garden ant
Development stage: all stages, nests (queen, adults, larvae)

Field(s) of use

Indoor

Outdoor

Insecticide for use in households (indoor) and on hard surfaces in rain protected areas around houses (outdoor, e.g. terraces, balconies).

Application method(s)

Method: Ready-to-use Bait station
Detailed description:
Ready-to-use Bait station

Application rate(s) and frequencies

Application Rate: 1 bait station, containing 1.5 g biocidal product (corresponding to 3.87 % (w/w) permethrin), per ant trail or per nest; max. 1 single bait station per 15 m²
Dilution (%): -
Number and timing of application:

Application frequency:
Place the bait min. 2 weeks, max. 4 weeks
If ants are still visible, repeat the treatment every 4 weeks during season of ant activity.

Category(ies) of users

General public (non-professional)

Pack sizes and packaging material

Bait station: 6,9 x 7,3 x 2,4 cm, PP

Outer packaging: 15,3 x 7 x 2,5 cm, paper, carton

(1 or 2 bait station(s) per package)

4.1.1 Use-specific instructions for use

4.1.2 Use-specific risk mitigation measures

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

5. General directions for use

5.1. Instructions for use

Take the bait station out of the packaging and place it horizontally on sheltered, paved and dry surfaces on preferred routes of the ants or as close as possible to the nest.

Place 1 bait station per ant run/nest (max. 1 bait station per 15 m²).

First, open one of the two bait chambers by pressing down several times and empty by this way. After that, do not tilt to prevent the bait from leaking out.

Depending on the severity of the infestation, open the second chamber in the same way after 7 days to activate the trap with fresh bait.

N-172: Protect bait boxes from rain. Put the bait boxes only in places where they are protected from rainfall events to avoid release of the product into the environment.

N-119: Apply only in areas that are not liable to submersion or becoming wet, i.e protected from rain, floods and cleaning water.

The product should be applied in a way that pets, food, feedstuff and livestock do not come in contact with the product.

N-292: Remove the bait station at the end of the treatment.

Wash hands after placing the bait station.

5.2. Risk mitigation measures

Keep out of the reach of children and non-target animals/pets.
Keep cats away. Due to their particular sensitivity to permethrin, the product can cause severe adverse reactions in cats.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

IF INHALED: not applicable.

IF SWALLOWED: If symptoms occur call a POISON CENTRE or a doctor.

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation or rash occur: Get medical advice.

IF IN EYES: If symptoms occur rinse with water. Remove contact lenses, if present and easy to do. Call a POISON CENTRE or a doctor

Measures to protect the environment:

Product and container shall not reach soil, water bodies and sewage system. In case of contamination notify the competent authorities.

5.4. Instructions for safe disposal of the product and its packaging

Dispose of contents/container to a special waste collection point in accordance with local/national/international requirements. Product residues must be collected and disposed of in accordance with the national waste disposal legislation and any regional and/or local authority requirements.
Do not re-use container for any purpose.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Store in a dry place in the original packaging.
Keep out of direct sunlight and moisture.
Shelf-life: 2 years

6. Other information

This biocidal product contains permethrin which is dangerous to bees.
