

# Summary of product characteristics for a biocidal product

**Product name:** Moth Gel Lavender

**Product type(s):** PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

**Authorisation number:** NL-0019053-0000

**R4BP 3 asset reference number:** NL-0019053-0001

## Table Of Contents

Administrative information	1
1.1. Trade names of the product	1

## Administrative information

### 1.1. Trade names of the product

Raid Moth Gel Lavender
Baygon Moth Gel Lavender

### 1.2. Authorisation holder

<b>Name and address of the authorisation holder</b>	Name	SC Johnson Europe Sàrl
	Address	Z.A. la Piece 8 1180 Rolle Switzerland
<b>Authorisation number</b>	NL-0019053-0000 1-1	

**R4BP 3 asset reference number**

NL-0019053-0001

**Date of the authorisation**

05/11/2021

**Expiry date of the authorisation**

05/11/2031

### 1.3. Manufacturer(s) of the biocidal products

<b>Name of the manufacturer</b>	SC Johnson Europe Sàrl
<b>Address of the manufacturer</b>	Z.A. la Piece 8 1180 Rolle Switzerland
<b>Location of manufacturing sites</b>	Zobeles Holding S.p.A, Via Fersina, 4 38123 Trento Italy

### 1.4. Manufacturer(s) of the active substance(s)

<b>Active substance</b>	1404 - Transfluthrin
<b>Name of the manufacturer</b>	BAYER SAS (formerly BAYER Environmental Science)
<b>Address of the manufacturer</b>	16 rue Jean Marie Leclair, CS 90106, 69266 Lyon, Cedex 09 France
<b>Location of manufacturing sites</b>	Bayer Vapi Private Limited, Plot No 306/3, II Phase, GIDC Vapi 396 195 Gujarat India

## 2. Product composition and formulation

### 2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Transfluthrin		Active Substance	118712-89-3	405-060-5	0,16
p-menthan-8-yl acetate		Non-active substance	58985-18-5		29,9
linalool		Non-active substance	78-70-6	201-134-4	7,36
Linalyl acetate		Non-active substance	115-95-7	204-116-4	7,78
Cineole		Non-active substance	470-82-6		1,12

### 2.2. Type of formulation

VP - Vapour releasing product
-------------------------------

## 3. Hazard and precautionary statements

<b>Hazard statements</b>	<p>Causes skin irritation.</p> <p>May cause an allergic skin reaction.</p> <p>Causes serious eye irritation.</p> <p>Very toxic to aquatic life with long lasting effects.</p>
--------------------------	---

## Precautionary statements

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read carefully and follow all instructions.

IF ON SKIN:Wash with plenty of soap and water.

If skin irritation or rash occurs:Get medical advice.

IF IN EYES:Rinse cautiously with water for several minutes.Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists:Get medical advice.

Wash hands thoroughly after handling.

Avoid release to the environment.

Collect spillage.

Dispose of contents to in accordance with local/regional/national/international regulation.

## 4. Authorised use(s)

### 4.1 Use description

#### Use 1 - General Public (non-professional)

##### Product type

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

##### Where relevant, an exact description of the authorised use

Insecticide

##### Target organism(s) (including development stage)

Scientific name: *Tineola bisselliella*  
Common name: Cloth moth  
Development stage: Larvae

Scientific name: *Tineola bisselliella*  
Common name: Cloth moth  
Development stage: Adults

##### Field(s) of use

Indoor

Insecticide for use in confined spaces with limited permeability, e.g. drawers, storage totes with lids, suitcases.

##### Application method(s)

Method: Open system: diffusion  
Detailed description:

Passive diffusion from cartridge.

**Application rate(s) and frequencies**

Application Rate: 2 units per a space of 0.018 m<sup>3</sup> (that is equal to 18 dm<sup>3</sup> or 18 litres).  
Dilution (%): 0  
Number and timing of application:  
Use 2 units per 0.018 m<sup>3</sup> (that is equal to 18 dm<sup>3</sup> or 18 litres)  
  
Product is effective up to 12 weeks against adult moths and up to 4 weeks against larvae.  
Allow 2 weeks for maximum effect.

**Category(ies) of users**

General public (non-professional)

**Pack sizes and packaging material**

Blister, Plastic pack (PET)  
Blister is sealed with a permeable plastic (PE-PP) membrane.  
The membrane is covered with a polyester coated Aluminium foil, which can be removed to activate the product.  
Multi packs or standard packs with two or more cartridges/blister packs.

**4.1.1 Use-specific instructions for use**

See general directions for use

**4.1.2 Use-specific risk mitigation measures**

See general directions for use

**4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

See general directions for use

**4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging**

See general directions for use

**4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

See general directions for use

**5. General directions for use**

**5.1. Instructions for use**

**Use directions:**

(Instruction icon will be included)  
Comply with the instructions for use.  
Adapt the number of units according to the volume of the treated space (e.g., drawer, storage tote with lid, suitcase).  
Inform the registration holder if the treatment is ineffective.

Keep drawers (or treated space) closed for optimal efficacy. Allow 2 weeks for maximum effect. Wash hands thoroughly after handling.

**DUO PACK ONLY**  
Separate the units. Open backing card of unit without removing it completely.  
Remove aluminum foil completely. Avoid making contact with the gel membrane.  
Fold the backing card, ensuring it does not cover the gel membrane.  
Place 2 units in a space of 0.018 m<sup>3</sup> (18 litres).

**MULTIPACK ONLY**  
Remove aluminum foil completely. Avoid making contact with the gel membrane.  
Place 2 units in a space of 0.018 m<sup>3</sup> (18 litres).

**5.2. Risk mitigation measures**

Avoid direct contact of the permeable membrane with clothes, fabrics and plastics.  
Use only as directed.  
Do not use near food, drink and animal feedingstuffs.  
Use only in positions inaccessible to children and animals, in particular cats.  
No application in rooms, where fish tanks and terrariums are present.

### 5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

No adverse effects expected when used as directed.

Pyrethroids may cause paresthesia (burning and prickling of the skin without irritation). If symptoms persist: Get medical advice.

IF INHALED: If symptoms occur call a POISON CENTRE or a doctor.

IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor.

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing for 5 minutes. Call a POISON CENTRE or a doctor.

### 5.4. Instructions for safe disposal of the product and its packaging

Dispose of contents/container in accordance with local regulations.

Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.

### 5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Do not store near food, drink and animal feedingstuffs.

Store at room temperature (not above 40°C).

The product has a shelf-life of 4 years in the packaging (PET blister coated with a permeable plastic (PE-PP) membrane, covered by polyester coated aluminium foil).

Keep out of reach of children and non-target animals/pets.

## 6. Other information

Linalool, linalyl acetate, p-menthan-8-yl acetate and cineole need to be declared based on the assigned H-statements according to Art 18(3) CLP.
