## **Acceptance of transfer of authorisation holder in Norway – ProFume**

We refer to your notification regarding transfer of the national authorisation for ProFume/Vikane - NO-2010-0002 (Case no BC-KC027690-54).

According to Article 50 (2) in Regulation (EU) No 528/2012 concerning the making available on the market and use of biocidal products, changes to the conditions laid down in a biocidal product authorisation shall be accepted/approved by the Competent Authority. Changes to a product authorisation are further described in Regulation (EU) No 354/2013.

We hereby confirm that the transfer of the Norwegian authorisation for ProFume/Vikane from Dow AgroSciences Danmark A/S to Douglas BLG BVBA is accepted. In addition, we have noticed that in the revised SPC there are some changes in the classification and labelling (H & P statements) of the product. We would like to remind you that in the future, separate notifications/applications would have to be submitted for such changes.

No other changes of the authorisation than the above mentioned is accepted with this letter.

The revised SPC is uploaded in R4BP3.

In some cases a PDF-format of the SPC is automatically generated in R4BP3. In such cases, please refer to the uploaded SPC in xml-format, as the automatically generated pdf-format seems generally to contain some mistakes.

We ask you kindly to provide an electronic copy of the revised label to the Norwegian Environment Agency within three months to [biocides@miljodir.no](mailto:biocides@miljodir.no).

Best regards  
Norwegian Environment Agency
