

Summary of product characteristics for a biocidal product

Product name: CORPOL ANTIXILÓFAGOS AEROSOL

Product type(s): PT08 - Wood preservatives (Preservatives)

PT08 - Wood preservatives (Preservatives)

Authorisation number: ES/APP(NA)-2021-08-00758

R4BP 3 asset reference number: ES-0026018-0000

Administrative information

1.1. Trade names of the product

CORPOL ANTIXILÓFAGOS AEROSOL
CORPOL MATACARCOMA AEROSOL
QM ANTIXILÓFAGOS

1.2. Authorisation holder

Name and address of the authorisation holder	Name	QUIMICA DE MUNGUIA S.A.
	Address	DERIO BIDEA 51 48100 MUNGUIA Spain
Authorisation number	ES/APP(NA)-2021-08-00758	
R4BP 3 asset reference number	ES-0026018-0000	
Date of the authorisation	02/06/2021	
Expiry date of the authorisation	30/04/2026	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	QUÍMICA DE MUNGUÍA, S.A.
Address of the manufacturer	Derio Bidea, 51 48100 Munguía (Vizcaya) Spain
Location of manufacturing sites	Derio Bidea, 51 48100 Munguía (Vizcaya) Spain

1.4. Manufacturer(s) of the active substance(s)

Active substance	1342 - Permethrin
Name of the manufacturer	LANXESS Deutschland GmbH
Address of the manufacturer	Kennedyplatz 1 50569 Köln Germany
Location of manufacturing sites	Bilag Industries Limited, Plot #306/3, II Phase, GIDC Vapi - 396 195 Gujarat India

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Permethrin		Active Substance	52645-53-1	258-067-9	0,14
Petrosol D 15/20	Hydrocarbons, C9-C11, isoalkanes, cyclics, < 2% aromatics	Non-active substance	64742-48-9	919-857-5	36,828

2.2. Type of formulation

AE - Aerosol dispenser

3. Hazard and precautionary statements

Hazard statements	<p>Extremely flammable aerosol.</p> <p>Pressurised container: May burst if heated</p> <p>May cause drowsiness or dizziness.</p> <p>Very toxic to aquatic life with long lasting effects.</p> <p>Repeated exposure may cause skin dryness or cracking.</p> <p>Contains Permethrin. May produce an allergic reaction.</p>
Precautionary statements	<p>If medical advice is needed, have product container or label at hand.</p> <p>Keep out of reach of children.</p> <p>Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. -</p>

No smoking.

Do not spray on an open flame or other ignition source.

Do not pierce or burn, even after use.

Avoid breathing dust.

Avoid breathing fume.

Avoid breathing gas.

Avoid breathing mist.

Avoid breathing vapours.

Avoid breathing spray.

Use only outdoors or in a well-ventilated area.

Avoid release to the environment.

Call a POISON CENTER or doctor/physician if you feel unwell.

Collect spillage.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Store in a well-ventilated place. Keep container tightly closed.

Protect from sunlight. Do not expose at temperatures exceeding 50 °C/122 °F.

Store locked up.

Dispose of contents to of contents/container as hazardous waste to a registered establishment or undertaking, in accordance with current regulations. (Trained professionals).

Dispose of contents to content and /or its container as hazardous waste according to the regulations in force. (Professionals and general public).

4. Authorised use(s)

4.1 Use description

Use 1 - Use # 1 – Wood preservative - Preventive treatment

Product type	PT08 - Wood preservatives (Preservatives)
Where relevant, an exact description of the authorised use	Preventive treatment of solid wood (softwood) for Use Class 1 (UC 1) against wood boring insects
Target organism(s) (including development stage)	Scientific name: <i>Hylotrupes bajulus</i> L. Common name: Wood boring beetles Development stage: Larvae

Field(s) of use	Indoor Indoor use (UC 1: situation in which the wood or wood-based product is inside a construction, not exposed to the weather and wetting)
Application method(s)	Method: Open system: spray treatment Detailed description: Superficial application: spray with handheld RTU aerosol dispenser
Application rate(s) and frequencies	Application Rate: 250 ml/m ² (200 g/m ²) (after degassing) Dilution (%): 0 Number and timing of application: Dose: 250 ml/m ² (200 g/m ²) (after degassing)
Category(ies) of users	Trained professional Professional General public (non-professional)
Pack sizes and packaging material	Pressurized can (tin) with aerosol dispenser with 250, 350, 400, 500, 600, 750, 1000 ml.

4.1.1 Use-specific instructions for use

Always read the label or leaflet before use and follow all the instructions provided.
CORPOL ANTIXILÓFAGOS AEROSOL provides preventive treatment of solid wood against insects (when wood is un-attacked).
Please refer to section in Directions for use

4.1.2 Use-specific risk mitigation measures

Trained professionals and professionals: Wear protective chemical resistant gloves for application of product and handling of treated timber (glove material to be specified by the authorisation holder within the product information).
Please refer to section in Directions for use

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please refer to section in Directions for use

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please refer to section in Directions for use

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please refer to section in Directions for use

4.2 Use description

Use 2 - Use # 2 – Wood preservative - Curative treatment

Product type	PT08 - Wood preservatives (Preservatives)
Where relevant, an exact description of the authorised use	Curative treatment of solid wood (softwood and hardwood) against wood boring insects
Target organism(s) (including development stage)	Scientific name: Hylotrupes bajulus L. Common name: House longhorn beetle Development stage: Larvae Scientific name: Anobium punctatum De Geer Common name: Common furniture beetle Development stage: Larvae Scientific name: Lyctus brunneus Common name: Powder post beetles Development stage: Larvae
Field(s) of use	Indoor
Application method(s)	Method: Open system: spray treatment Detailed description: - Superficial application: Spray with handheld RTU aerosol dispenser. - For intensive treatment: Injection application with handheld RTU aerosol dispenser to existing and controllable number of holes, using a cannula or capillary tube supplied with the container. To be applied in combination with superficial treatment.
Application rate(s) and frequencies	Application Rate: Superficial 300 ml/m ² (after degassing); Injection up to 400 ml/m ² (after degassing) Dilution (%): 0 Number and timing of application: - Superficial 300 ml/m ² (after degassing) - Injection up to 400 ml/m ² (after degassing)

Category(ies) of users	<p>Trained professional</p> <p>Professional</p> <p>General public (non-professional)</p>
Pack sizes and packaging material	<p>Pressurized can (tin) with aerosol dispenser with 250, 350, 400, 500, 600, 750, 1000 ml.</p>

4.2.1 Use-specific instructions for use

Always read the label or leaflet before use and follow all the instructions provided.
CORPOL ANTIXILÓFAGOS AEROSOL provides curative treatment of solid wood against insects (when wood is attacked).
Injection for intensive treatment: application with handheld RTU aerosol dispenser to existing and controllable number of holes, using a cannula or capillary tube supplied with the container. To be applied always in combination with superficial treatment.
Please refer to section in Directions for use

4.2.2 Use-specific risk mitigation measures

Trained professionals and professionals: Wear protective chemical resistant gloves for application of product and handling of treated timber (glove material to be specified by the authorisation holder within the product information).
Please refer to section in Directions for use

4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please refer to section in Directions for use

4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please refer to section in Directions for use

4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please refer to section in Directions for use

5. General directions for use

5.1. Instructions for use

Before using the product carefully read the precautions.

The premises where the application is made must be ventilated adequately during and after the treatment. The product is intended to be applied directly on different types of wood such as parquet, flooring, wood decor (plinths, friezes, baseboards), carpentry (doors and windows), structural timber furniture and works of art.

The users should inform if the treatment is ineffective and report straightforward to the registration holder.

After the product application, 12 hours must be respected before taking contact with the treated wood. If it is necessary, another treatment on the wood can be applied and additional 12 hours should be respected as well (24 hours in total).

Before applying over the entire surface of the wood, it is advisable to test on a non visible part to ensure that it does not affect the finished of the product.

Do not apply the product more than once a year.

It should not be mixed with any other chemical.

5.2. Risk mitigation measures

Keep children and pets away from treated surfaces until dried.

Do not use directly on or near food, feed or drinks, or on surfaces or utensils likely to be in direct contact with food, feed, drinks and animals

During product application and whilst surfaces are drying, do not contaminate the environment. All losses of the product have to be contained by covering the ground (e.g. by tarpaulin) and disposed of in a safe way.

Can be harmful to protected species such as bats, hornets or birds. The presence of protect species in the area to be treated must be assessed prior to use of rthe product. Appropriate protective measures must be taken if necessary.

Contain permethrin (pyrethroids), may be lethal to cats. Cats must be avoid contact with treated object area.

Do not mix with other chemicals.

Store in original packaging under recommended storage conditions.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing.
If symptoms: Call 112/ambulance for medical assistance.
If no symptoms: Call a POISON CENTRE or a doctor.
IF SWALLOWED: Rinse mouth.
If symptoms: Call 112/ambulance for medical assistance.
If no symptoms: Call a POISON CENTRE or a doctor.
Information to Healthcare personnel/doctor: Initiate life support measures if needed, thereafter call a POISON CENTRE.

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: If symptoms occur rinse with water. Remove contact lenses, if present and easy to do. Call a POISON CENTRE or a doctor.

IF MEDICAL ADVICE IS NEEDED, HAVE THE PRODUCT CONTAINER OR LABEL AT HAND AND CONTACT THE POISON CONTROL CENTER

Environmental precautions
Do not discharge the biocidal product nor the diluted solution of the biocidal product into the sewage system or the environment. Contain and recover all leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatomaceous earth in drums for waste disposal.
Prevent all product entry into drains or waterways.
Place containers or drums for disposal of waste recovered in accordance with applicable regulations.
If the product contaminates waterways, lakes, rivers or drains, alert the competent authorities in accordance with regulatory procedures into force.

5.4. Instructions for safe disposal of the product and its packaging

Do not release to soil, ground, surface water or any kind of sewer.

Professionals and non-professionals (general public):
Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.
Do not release to soil, ground, surface water or any kind of sewer.

Trained professionals:
Empty containers, unused product, washing water, containers and other waste generated during the treatment are considered hazardous waste. Deliver those wastes to a registered establishment or undertaking in accordance with current regulations. Code the waste according to Decision 2014/955/EU.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Keep out of reach of children and non-target animals/pets.
Store in the original container tightly closed.
Store in a dry, cool and well ventilated place.
Protect from frost.
Protect from sunlight and do not expose to temperatures exceeding 40°C
Shelf-life: 2 years

6. Other information

Treated wood should not be intended for uses involving contact with food, feed or livestock.

Definitions:
Trained professional: pest control operators, having received specific training in wood preservatives according to the national legislation in force.
Professional: User applying biocidal products in the workplace. This user has some knowledge and skills in the handling of chemicals, and is able to correctly use personal protective equipment (PPE) if necessary.
General public (non-professional user): Users who are not professionals and who apply the product in the context of their private life.
