Change to biocidal product authorisation - Control Bloc - NO-2014-0050

We refer to your application for a change to the biocidal product authorisation for Control Bloc - NO-2014-0050 (Case no. R4BP: BC-PD021550-59).

According to Article 50 (2) in Regulation (EU) No 528/2012 concerning the making available on the market and use of biocidal products, changes to the conditions laid down in a biocidal product authorisation shall be approved by the Competent Authority. Changes to a product authorisation are further described in Regulation (EU) No 354/2013.

Regulation (EU) No 528/2012 and Regulation (EU) No 354/2013 are implemented in Norwegian law through the Norwegian Biocide Regulation of 10 April 2014 No. 548.

The change to Control Bloc concerns extension of the product authorisation to include non-professional use and adjustment of the dosage for mice up to 100 g per bait station. The change is classified as a major change, in accordance with the criteria laid down in Title 3 of the Annex to Regulation (EU) No. 354/2013.

Decision

Subject to Articles 19 and 50 of the BPR, cf. § 1 of the Norwegian Biocide Regulation, the Norwegian Environment Agency approves the proposed change to Control Bloc.

No other changes than the above mentioned are accepted with this letter. Apart from the changes outlined above, the authorisation conditions as stated in the authorisation letter dated 10th April 2014 are valid.

The revised SPC is uploaded in R4BP3. Please refer to the uploaded SPC in XML format, as the automatically created PDF file in R4BP 3 generally seems to contain some errors.

We kindly request that the revised label (final artwork) is submitted to biocides@miljodir.no within three months.

Appeal

This decision can be appealed to the Ministry of Climate and Environment, in accordance with § 7 of the Norwegian Biocide Regulation. The complaint must be submitted to the Norwegian Environment Agency within 3 weeks after receipt of this letter, in accordance with § 28 of the Norwegian Public Administration Act.

Best regards

Norwegian Environment Agency
